

Psalms of Archangel Gabriel

77 Bless and sanctify all your activities.

1. Men are constantly creating places, environments, worlds in which they would like to live. In these spaces, they make ideas, thoughts, moods, projects appear and, when they become reality, they often stop caring for them and leave them in the hands of the world of luck or of destiny. An Essene must not act in this way.
2. You must never be passive and abandon what is precious to a world governed by chance. You must not rely on an alleged “destiny,” on an illusory and indeterminate world. On the contrary, you have to learn to lead what you want to see happen on earth up to the end. You must constantly be active in all your activities, in harmony with your goal.
3. I ask the Essenes to honour the Angel of Blessing and the Angel of Sanctification.
4. Through his life, the Essene must bless and sanctify everything that he does and brings into the world.
5. The act of blessing is a sacred activity.
6. Blessing makes the presence of God appear.
7. Sanctification is an offering to life.
8. When an Essene wants to carry out a project on earth, he has to stand in the pure ray of blessing. He has to continuously bless, be active, alive, make use of everything so that his idea appears in the earthly reality. All the beings he encounters, all the events, all the situations must be blessed and led by sanctification towards the realization of his work.
9. An Essene is always active, this is the supreme key. He is never passive. He does not let an alleged “destiny” take his life in hand. He determines his destiny himself through blessing and sanctification.
10. What is accomplished in the world of men must be to sanctify the Father.
11. Only what is sanctified can go back up to the Father.
12. Meditate and invite into your lives the 2 Angels of Blessing and Sanctification.
Let this be your world, your lives, the path of the Essenes. Carry these 2 Angels in your activities, your creativity, your organization, your communication, the union of your strengths for the accomplishment of a work bigger than each one of you.
13. None of you can carry out a great work alone. But together, you can open the doors of a world that will touch all the worlds in the great blessing of the sun and the sanctification of Light.
14. What my son has done for you by bringing me into your midst is a blessing that can now sanctify your lives if you do not let chance guide you.
15. What my son did for you, you can do for a multitude.

16. If you call the 4 Archangels into the life of your community, your nation, a multitude of beings will see the seal of the Light appear above the Essene people. They will then find the strength and determination to walk in your steps and transform their lives in the Light. In this way you will be what you, Essenes, eternally are: the blessing of heaven on earth and the sanctification of the Father that open all the doors to the higher worlds.
