OPPORTUNITY TO START THINKING & WORKING DIFFERENTLY

At this conference, we will explain the desperate need for change and go on to lay out audacious, ambitious, and exciting plans to restructure and reprioritise the way we engage with the culture around us.

The day conference will feature talks by About Abortion host **Beth Davey**, Vote Life founder **Christian Hacking**, and many more. It will also offer optional opportunities for worship and prayer and, most importantly, breakout groups to start building for a better tomorrow.

Come ready to participate!
