**Thrombocytopenia is a condition in which you have a low blood platelet count.**

## INDICATION :

Dengue, Chemotherapy, Liver Cirrhosis / Dialysis, Hepatitis B, Alcoholism, Idiopathic Thrombocytopenic Purpura (ITP), Malaria / Viral.

## PLATELET BOOSTER :

Carica papaya is a rich source of complex biochemical constituents including flavonoids, glycosides, alkaloids, glutathione & glucosinolates that helps boost the number of platelets by stimulating bone marrow. It can also prevent platelet destruction in the blood and thereby increase the life of the platelet in circulation.
