

Climate Action - Save Water

Did you know?

- By cutting water usage, we use less energy to pump and treat it – reducing emissions of air-polluting greenhouse gases.
- Richmond Hill residents consume about 225 litres of water per day!
- Richmond Hill's target: Reduce water consumption by 25%

It's Easy to Do!

Save up to 20 L of water per minute using low-flow shower heads

Save up to 14 L of water per flush using low-flow toilets

Use at least 33% less water and 25% less energy by using an Energy Star certified washing machine.

More water and sewage backup tips:

Visit and share Richmond Hill's [Water Conservation Page!](#)

Call Richmond Hill's Public Works Operations immediately at 905-771-8800 when there's a sewage backup in your home. They will send an authorized drain contractor to your home. More info [here](#).

Richmond Hill has a [Climate Plan](#) - you have a role to play in it!
