BUILT FOR CONSISTENCY

Quality and production mindset

For B2B manufacturing, consistency matters as much as creativity. CENTEX focuses on controlled sample approval, clear communication and stable execution from development to production.

Material consistency

Support stable material selection for repeated production.

Color matching control

Match standard, Pantone or Federal Standard colors where required.

Width & thickness stability

Focus on specification clarity before production.

Pattern clarity

Develop woven patterns and logo details with readable structure.

Sample approval

Confirm sample before production to reduce risk.

Batch communication

Keep production information clear from sample to delivery.

WHY WORK WITH CENTEX

A practical partner for custom narrow fabrics

CENTEX is positioned as a custom webbing partner: practical, flexible and focused on turning small product details into stronger product value.

- Custom development beyond stocked items
- Flexible material and width options
- Logo and pattern weaving capability
- Color matching support
- Clear communication from sample to production
- Suitable for multiple industries

CENTEX does not only provide webbing. CENTEX helps develop webbing solutions.

HOW TO REQUEST A SAMPLE

Information that helps development move faster

Not sure about the specification? Send CENTEX your product idea, sample or target application. Our team can help define a suitable webbing solution.

- **Product application**
- **Material preference**
- **Width / thickness**
- **Color code or physical**
- **Logo / artwork if needed**
- **Quantity expectations**
- **Special requirement**

Sample Request CTA

Send us your sample, artwork or specification. CENTEX will support custom development based on your product needs.

Let's Develop Your Webbing Solution

From a simple strap to a custom woven identity, CENTEX helps brands turn narrow fabrics into functional, recognizable and reliable product details.
