

TEFLON TUBE

The Teflon Tube is a premium-quality tubing solution known for its low friction surface and non-stick properties, ensuring smooth and efficient flow. It offers excellent resistance to chemicals, weather conditions, and high temperatures, making it highly reliable in demanding environments.

With superior dielectric insulation properties and minimal ageing characteristics, it maintains long-term performance and stability. Ideal for use in chemical processing, electrical applications, and high-performance fluid transfer systems.

Teflon Tube

Features

- Low Coefficient of Friction
 - Excellent Non-Sticky Surface
 - Good in Chemical and Weather Resistance
 - Excellent Dielectric Insulation Properties
 - Almost No Aging
-
