

# BLACK EXHAUST HOSE

## Black Exhaust Hose

The Black Exhaust Hose is a high-performance flexible duct designed for efficient exhaust gas extraction and air movement. Made with durable materials and reinforced construction, it offers excellent resistance to heat, chemicals, and abrasion.

Its flexible and compressible design allows easy installation even in tight spaces, while the smooth interior ensures efficient airflow. Ideal for use in industrial ventilation, engine exhaust systems, and HVAC applications.

<b>Wall</b>	PVC Coated Polyester Fabric
<b>Spiral</b>	Steel Wire Helix
<b>Features</b>	<ul style="list-style-type: none"><li>• Flame Retardant</li><li>• Vibration Resistant</li><li>• Tearing Resistant</li><li>• High Tensile Strength</li><li>• Minimum Weight</li><li>• Highly Flexible and Compressible up to 10:1</li><li>• Very Small Bending Radius</li></ul>
<b>Application</b>	<ul style="list-style-type: none"><li>• Air Suction and Transport Hose ideal for:</li><li>• Air Conditioning and Ventilation of Fumes, Light Duty Dust Extraction, and Air Movement</li><li>• Flexible connection between Grilles, Diffusers, Fans and other Air Movement Units</li><li>• Suction of Engine Exhaust Gas</li><li>• Exhaust Gas Technology, Engine Construction, Engine Warming, Aircraft Construction, and Military Construction</li></ul>
<b>Temp Range</b>	-40°C to +100°C
