

NYLON TUBE

Nylon Tube

The Nylon Tube is a strong and durable tubing solution designed for reliable performance in demanding environments. It offers excellent weather resistance, along with high resistance to abrasion and vibration, ensuring long service life.

With good ageing properties and the ability to withstand exposure to chemicals, alkalis, dilute acids, and oxidizing agents, it is ideal for a wide range of industrial applications.

Suitable for use in pneumatic systems, automotive applications, and fluid transfer systems where strength and durability are essential.

Nylon Tube

Features

- Excellent in Weather Resistance
- Resists Abrasion and Vibration
- Good Aging
- Can Withstand Contact with Chemicals, Alkalis, Dilute Acids or Oxidizing Agents
