

Bday Luxury Edition

The Signature Standard for Elite Hospitality

Target Markets: 4 & 5-Star Hotels, Boutique Luxury Lodges, Executive Suites, High end Wellness Spaces and Premium Senior Living.

Elevated Simplicity: The Luxury Edition takes the proven engineering of the Pro series and wraps it in a high-design aesthetic. It is built for properties that demand a "no-explanation-needed" user experience without sacrificing the visual language of luxury.

1. The Luxury Aesthetic

- **Stylized Accents:** Features premium metallic trim and accents (available in Brushed Gold) to match high-end architectural hardware.
- **Architectural Slim Profile:** A ultra-lean silhouette that maintains a "built-in" look, avoiding the bulky appearance of standard aftermarket bidets.
- **Cerulean Night-Sight:** An integrated interior blue LED light that provides a sophisticated ambient glow and safety for nighttime use.

2. The IR44 "Pure-Control" Interface

- **Simple 2-Button Remote:** No confusing menus or digital screens. The high-tactile IR44 build features two intuitive buttons: "**W**" (**Wash**) and "**D**" (**Dry**).
- **Tactile Response:** Heavy-duty, satisfying button feedback designed for a premium, mechanical feel.
-

- **Magnetic Docking:** The remote snaps into a secure magnetic cradle with a **discrete cable architecture** to keep the vanity area clutter-free.

3. Performance & Reliability (Same Pro-Grade Foundation)

- **Triple-Warm™ Comfort:** Instant warmth for the seat, water, and air-dryer, ensuring a spa-like experience from the first second.
- **Slow-Close Precision:** Hydraulic lid and seat mechanism for a silent, "soft-landing" close.
- **Maintenance-Free Sanitation:** Retractable 316-grade stainless steel wand with an automated self-cleaning cycle.
- **Industrial Mounting:** Heavy-duty stainless steel mounting bracket and hardware for a rock-solid, shift-free fit.

4. Technical Specifications & Support

Component	Specification
Warranty	Extended 5-Year Commercial Warranty
Support	Priority B2B Support Line for facility managers
Remote Build	IR44 Industrial Housing (Simple W/D Interface)
Power	120V with extra-long cable for flexible installation
Consumption	Energy-efficient architecture for large-scale deployments
Plumbing	Universal 7/8" Metal Tee included

The Luxury Investment Case

Managers of elite properties know that the more complex a device is, the more likely it is to break or confuse a guest. The **Bday Luxury Edition** solves this by providing "Intuitive Luxury"—a beautiful, high-end product that works perfectly every time with a single touch. With the **extended warranty and dedicated support**, your investment is protected as well as your reputation.

Bday today everyday.
