Letter of Interest

About Railways Projects

In the Republic of Equatorial Guinea

and Central African Region

His Excellency President Teodoro Obiang Nguema Mbasogo, of the Republic of Equatorial Guinea.

Cc: H.E. Pastor Micha Ondo Bile, Minister of Commerce and SME Development.

China and Equatorial Guinea are reliable partners and brothers. Equatorial Guinea is one of the most important countries in Central Africa. Equatorial Guinea has a high level of economic and social development, outstanding geographical advantages and very good development potential. We believe that giving full play to Equatorial Guinea's regional influence and taking Equatorial Guinea's Free Trade Area as the core of the region, calling on neighboring countries to jointly build a railway network in Central Africa will greatly enhance the efficiency of regional freight transport, facilitate people's exchanges and contribute to the better promotion of the Central African Economic and Trade Community and the Well-being and regional development level.
