Objective

A dedicated Cyber Security student seeking an entry-level opportunity to apply academic knowledge and technical skills in a dynamic cybersecurity environment. Eager to contribute to organizational security efforts while gaining practical industry experience. Committed to continuous learning and professional growth in the evolving field of information security.

Work Experience

Operations Officer

2022 – 2023 – 2024 – 2025

General Syndicate of Cars

Makkah, Saudi Arabia

- Responsible for entering buses to the Southeast Asia warehouse during the Hajj season, registering them in the special application called “Guest”, and also launching buses from the warehouse to take pilgrims from Mina or Arafat.

Cybersecurity Management Trainee

2025

General Syndicate of Cars

Makkah, Saudi Arabia

- During the training, cybersecurity principles were applied within a governmental environment, with participation in reviewing and analyzing cybersecurity policies and procedures in alignment with regulatory frameworks. The role included extracting and documenting official policies to support compliance requirements, preparing periodic reports to track tasks and progress, coordinating with field supervisors on technical and organizational matters, and supporting cybersecurity governance and risk management practices.

Educational Supervisor

2025

General Syndicate of Cars

Makkah, Saudi Arabia

- Volunteered as a supervisor and events organizer, overseeing elementary and middle school students and contributing to the planning and execution of cultural, educational, and recreational programs. The role involved designing interactive activities and educational competitions aimed at promoting positive values and social skills, organizing events, managing time effectively, engaging directly with students, and coordinating with the supervision team to ensure safe and well-structured activities.

Educational Supervisor

2026

General Syndicate of Cars

Makkah, Saudi Arabia

- Contributed to backend development using the Laravel framework while establishing a secure server environment by deploying Prometheus, Grafana, and Node Exporter for monitoring, managing Linux firewalls, and implementing strict database access control policies to ensure application isolation and data security.
-

Education

Bachelor of Cyber Security

Aug 2022 - present

GPA: 3.59/4

Umm Al Qura University

Makkah, Saudi Arabia

Presented courses

The Achiever's Compass

Oct 2023

Umm Al Qura University

Makkah, Saudi Arabia

- Delivered a training course highlighting the importance of planning in achieving goals, explaining effective goal-setting techniques and practical planning methods. The course also addressed key obstacles to achievement and practical approaches to overcoming them, contributing to improved productivity and measurable outcomes.

Prezi website

Raqi Association

Dec 2022

Makkah, Saudi Arabia

- Delivered a training course on using Prezi for designing and delivering professional presentations, highlighting the importance of presentations in effective communication and audience engagement.
