

Core Philosophy on APEC Candidate Vetting & Endorsements

1. The APEC Endorsement should mean something. It should not be just “another endorsement” by another group for candidates to add to their list, but rather a SPECIAL and MEANINGFUL endorsement which represents the endorsement of numerous Conservative, America-first, Grassroots, MAGA groups throughout the state of Florida.
2. The APEC Endorsement shall be provided to candidates who align with the values represented by the groups that comprise APEC. In addition to aligning themselves with our values, candidates seeking the APEC endorsement must demonstrate they have more than “good intentions,” **but also a path towards winning the office they seek.**
3. Candidates seeking the APEC endorsement shall have a demonstrated record of holding conservative values, an America-first mindset, and Grassroots involvement.
