Storefront

Timeless Legacy was created to offer a high-end reliable location for watch enthusiasts to discover their next masterpiece. The olive green colored top section jumps you straight into the collection of watches. As the user goes down further, they will see the list of watches such as Rolex and Patek Philippe that are clearly listed with their prices and images to know exactly what the user is looking at. And finally, the user can shop by their favorite brand and even sign up for the exclusive club to hear stories from other watch collectors.

Shopping Cart

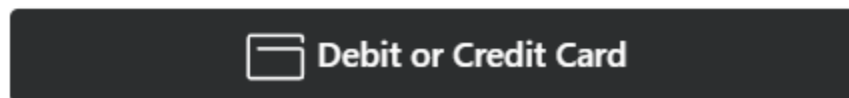

As you can see here, this is a shopping bag. Here, there are two items in it. The pricing and quantity are visible to users. You can also see pictures and names of the watch there so people know what they look like. At the bottom there is a subtotal that shows the total cost of all the items. Once users have made their decision, they can go to checkout, which will redirect them to the shipping information.

The payment option gives four payment options to ensure that purchasing your new watch is an ideal and worry-free experience. The first payment option is using PayPal which allows them to transfer money using that application. The second payment option is the Cash on Delivery (COD), where they can pay on the day the item is delivered to the door, for them to pay and instantly get the item. The third payment method is through Gcash which is the popular payment method in the Philippines currently. Lastly, the last option is Debit or Credit card, where they'll input their card number and information for them to pay for the product.
