

S-TECH PEB DESIGN LLP

Driven by Growth / Defined by Quality / Trusted for Satisfaction

MISSION

To increase current capacities and its downstream operation to achieve economies of scale and to establish ourselves as a quality service provider through continual performance improvement, meeting the customer's expectations, and striving to develop value-added options from the side stream of our services.

THE FOUNDATION

About the Company

S-TECH PEB DESIGN LLP is a premier Indian engineering firm at the forefront of steel structure innovation. We provide a holistic approach to building, integrating **Planning, Architecture, Structural Engineering, and Construction Management**.

Backed by a leadership team with over **20 years of hands-on experience**, we bridge the gap between complex engineering requirements and cost-effective execution.

Our Track Record

- **5000+** Projects Successfully Delivered.
- **10+ Years** of Industry Presence.
- **50+** Specialized Engineers and Detailers.

CORE SPECIALIZATION

1. Pre-Engineered Building (PEB) Excellence

We specialize in modular steel components designed for rapid assembly without compromising on strength.

- **Applications:** Warehouses, Industrial Sheds, Factories, and Cold Storage.
- **Optimized Design:** We use advanced CAD/BIM tools to ensure the highest strength-to-weight ratio, saving you material costs.
- **Code Compliance:** Every design adheres to **AISC, MBMA, and IS codes**.

2. Architectural Design Services

Transforming Visions into Sustainable Reality

At **S-TECH PEB DESIGN LLP**, we balance aesthetic brilliance with structural integrity to create functional environments tailored to your needs.

- **Concept Development:** Innovative sketches and spatial configurations that maximize utility.
- **Space Planning:** Optimized zoning to ensure smooth workflows for industrial and commercial projects.
- **Regulatory Compliance:** Expert navigation of building codes and safety standards for a hassle-free approval process.
- **Sustainability:** Focus on energy efficiency and natural lighting to reduce long-term operational costs.

TECHNOLOGY & TOOLS

We utilize a world-class software suite to ensure "Zero-Error" delivery:

- **Modeling:** Tekla Structures,Staad Pro
- **Drafting:** AutoCAD, RebarCAD.
- **Analysis:** Advanced structural simulation tools for load-bearing verification.

S-TECH PEB DESIGN LLP

SERVICE CATALOG

Service	Key Deliverable
Architectural Design	Concept development, space planning & sustainability.
Structural Engineering	Load analysis and stability certification.
3D Modeling	Clash detection and walkthroughs for visualization.
Project Management	Resource allocation, scheduling, and QC.
BMS Solutions	HVAC, lighting, and security automation.
Interior Execution	Turnkey furniture, lighting, and finishes.
Substation Design	Detailed electrical engineering for power distribution.

WHY PARTNER WITH S-TECH?

- **Economies of Scale:** Our streamlined operations allow us to provide premium services at competitive market rates.
- **Precision Detailing:** We eliminate "guesswork" on-site, leading to faster erection and lower labour costs.
- **Transparency:** Constant communication and adaptability to project-specific needs.
