

# Baswani AI Solutions

## Smart Business Analytics with AI

Track revenue. Manage payments. Grow with AI.

Built for Institutes & Small Businesses.

BASWANI AI

# Challenges Businesses Face

- **Not knowing exact monthly revenue revenue**

Unclear totals and delayed reporting make forecasting hard.

- **Confusion in pending payments**

Unreconciled invoices and overdue payments slow cash flow.

- **Wasting hours managing Excel sheets sheets**

Time-consuming spreadsheets lead to errors and wasted hours.

- **No clear visibility of performance**

Leaders lack a single view to understand business health.

# Our Business Analytics Solution

We provide a smart, structured dashboard that gives institutes and small businesses a single place to see their financial health and customer activity.

**All your business data in one simple view.**

**Track revenue in real-time**

Up-to-date totals and trends so you always know your financial position.

**Monitor pending payments**

Clear lists of outstanding invoices and due dates to protect cash flow.

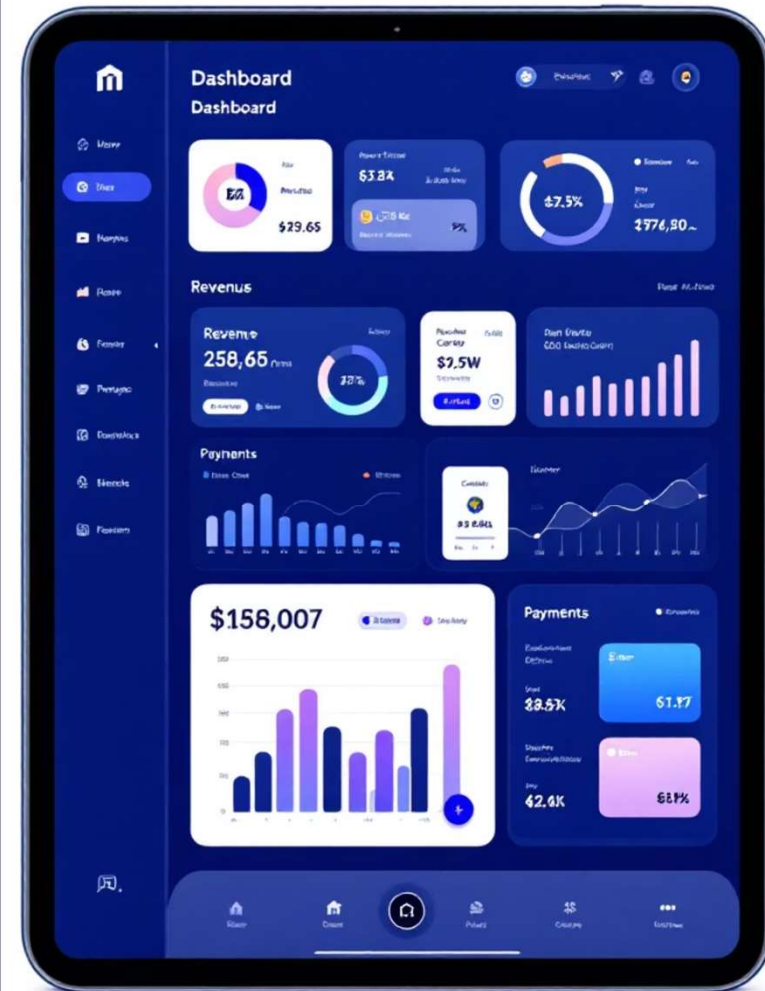

**View customer & order data**

Compact summaries that reveal top customers and recent orders.

**Understand overall performance**

One place to assess growth, trends, and immediate priorities.

# Key Features

## Revenue tracking

Clear daily, weekly, and monthly views.

## Payment status monitoring

See due, overdue, and cleared payments at a glance.

## Customer & order insights

Identify top customers and order patterns quickly.

## Clean, simple UI

Designed for speed and clarity — minimal learning curve.

## Organized visualizations

Charts and summaries designed to highlight what matters.

# How It Helps You

## **Save time**

Reduce manual reporting and free staff for higher-value work.

## **Improve financial clarity**

Accurate, up-to-date figures that simplify planning.

## **Make better decisions**

Actionable insights support pricing, collections, and growth choices.

## **Increase efficiency**

Streamlined views reduce follow-ups and chase time for payments.

## **Stay in control**

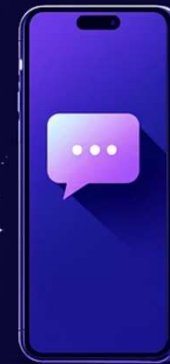

One consistent source of truth for business performance.
