Louisiana Association of Fairs and Festivals

To whom it may concern,

Jackie "Miss FireFeat" Sheffield and myself have hosted a Wednesday night fire flow practice meeting for the past 10 years. It is the longest lasting flow & circus arts, spin jam (fire & LED), in Austin, TX. During that time I have come to know Jackie as a professional entertainer, dedicated to consistently improving her craft. To the point where she now performs seamlessly, controlling props with her feet. Resulting in uniquely crafted dance moves, of her own creation.

Her professionalism, communication skills, punctuality, reliability, skill level, attention to detail, and ability to anticipate the needs of the entertainers, safety professionals, and clients, is second to none. Her management skills enables her to assemble the best talent available. On projects as big as festivals, to smaller backyard events. She makes the flow easy for both the performers and clients, resulting in memorable entertainment. I know this from working with her as one of the entertainers in one of her troupes.

Jackie is licensed as a Flame Effects Operator (FEO), and is insured as a fire performer. Jackie is a certified teacher, and has taught classes ranging from private lessons, to group sessions at Festivals. Her teaching style breaks down the esoteric nature of flow performing, into easily understandable steps, without being patronizing.

I highly recommend Jackie for any fairs, festivals, corporate, and private events.

Sincerely yours,
