FURNITURE

Introduction

LEAF – MADE IN MINUTES – HIGH QUALITY – AFFORDABLE

In 2021, Matt Henfrey, had an inspired idea for producing a, **high quality, affordable, value for money** and **fast assembly** flat pack furniture range. The system requires **no tools**, for the assembly and disassembly of the items, each **made in minutes**, totally eradicating the construction frustrations found with many current available systems.

LEAF: Lifestyle – Easily – Assembled – Furniture, introduces ranges of living, dining, bedroom and home office items. **LEAF** is manufactured using top quality Birch Plywood, to a high standard, with easy to use metal accessories for the assembly system .

Designed and prototyped in the UK, and tested for ease of assembly & disassembly, **strength & durability**. Our factory partners, are fully compliant allowing for sales & marketing worldwide of our ranges of furniture.

LEAF brings solutions at **competitive prices**, allowing the large flat-pack furniture market sector, access to our easy assembly, disassembly, **movable and reusable** furniture.

Assembly & Packaging

The **LEAF** range of furniture is designed as probably the fastest and easiest assembly and disassembly system in flat-pack offerings available anywhere today. We create strong, stylish, affordable additions to homes and offices.

LEAF products are supplied with a top grade, reusable custom-made packaging case, produced from fully recycled and strong materials, enabling the customer to disassemble the furniture and move with ease, from room to room, between different floors and also when moving home.

All products have their own individual QR Code, linked to a simple step by step animation video, illustrating how each furniture design is assembled, with easy to follow instructions also included in the item's box.

LEAF hopes you enjoy using our furniture as much as we have enjoyed creating and bringing these to you.
