

# Introduction

## PDQ Global – Solutions for fast build Accommodation, Shops, Schools, Community Centres, Hospitals and Medical Centres around the world.

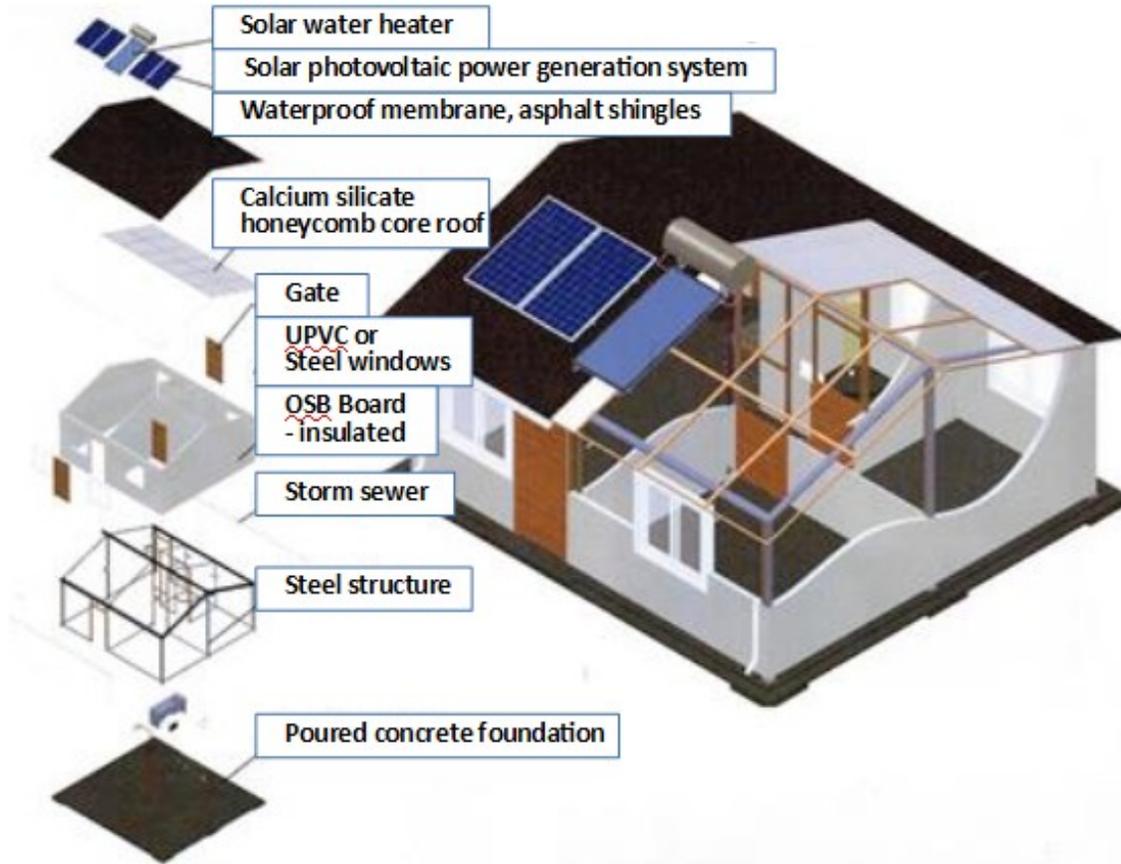

Modern communications mean that world disasters and human tragedy, places responsibility for humanitarian aid and re-settlement on communities worldwide.

All our PDQ construction systems provide low cost and fast build housing and community centres to help governments and aid organisations fulfil commitments around the world.

With projects across Asia, Africa, and South America where people are in crisis, Hexbuild construction systems provide an instant and economic solution and..... fast!

# Why Choose PDQ Global?

- \* Low Maintenance
- \* Low Cost – Fast Build
- \* Modular Scalable Design
- \* Superior Safety Properties
- \* High Technical Specifications
- \* Project Management Service
- \* Zero Waste Assembly System
- \* Environmentally/Eco Friendly Materials

**The PDQ building systems and materials under rigorous test conditions, have been shown to provide excellent resistance to Fire/Sound/Heat/Cold/Earthquake/Shock/Water Damage**

**Fire Protection - Fully Retardant to 120 minutes - Out performs all other comparable materials**

**Wind Damage Safe - Hurricane and Wind Resistance safe to Level 12**

**Shock and Bending resistance - Earthquake safe to Level 9**

### **Excellent materials for Building**

**Heat Insulation – Cool in Summer / Warm in Winter / Special Materials for Sub Zero Climates**

**Out performs all other comparable materials**

**Waterproof and Water Penetration resistant – Advanced Materials for all climatic conditions**

**Wall Hanging pull out force - Out performs all other comparable materials**

**Sound Insulation – Superb Internal and External performance**

### **Fast Practical Constructional use**

**Fast Construction of all Buildings and no site or environment pollution through material waste**

**Quality Engineering - buildings to last 20 -100 Years – maintenance free**

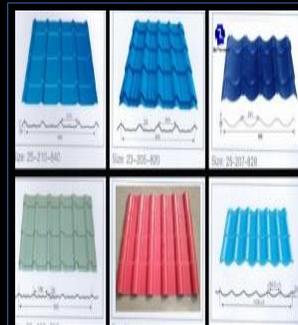

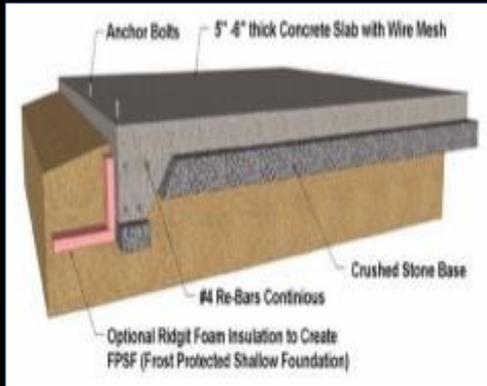

### **Environment and Eco Friendly Products**

**Tested and Certificated in countries around the world**

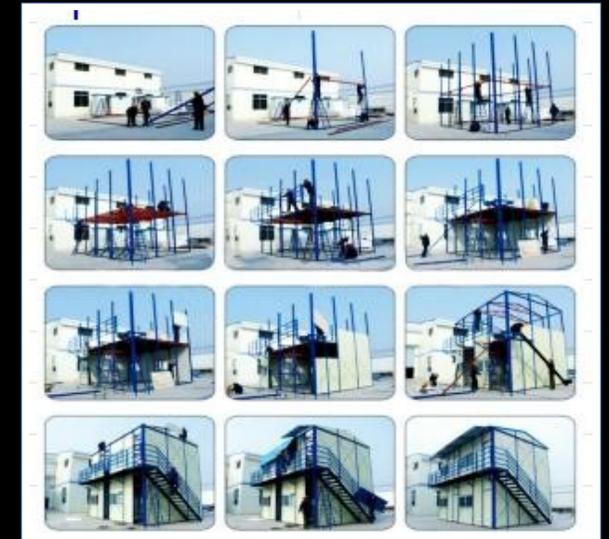

**Many components made from recycled materials and we employ clean production methods – Carbon Neutral**

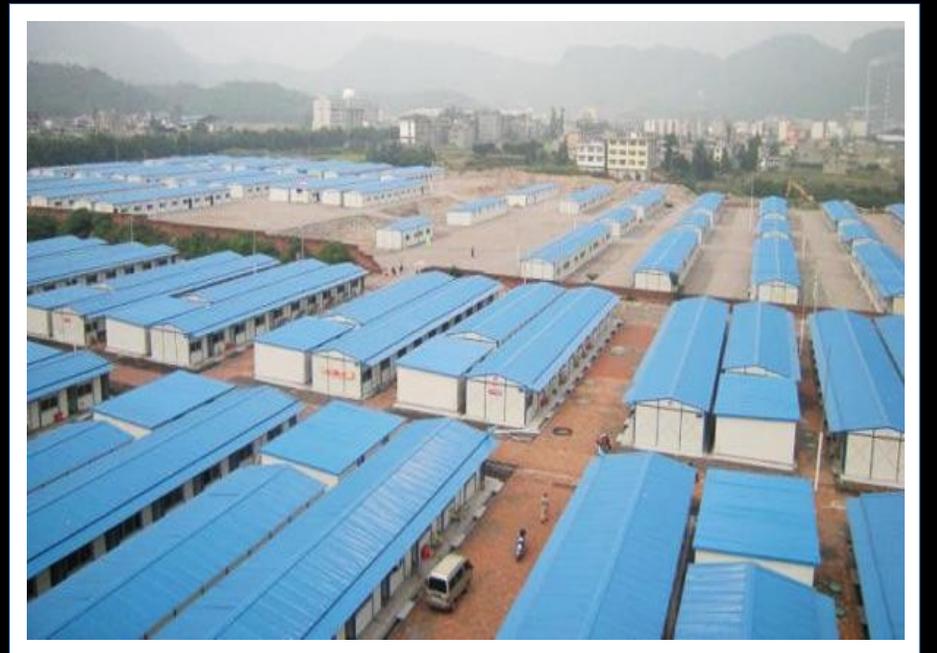

# Fast Build Solutions

The PDQ construction system relies on geometric principles combined with the strength of the component parts, to create super strong and weather resistant structures for long - lasting residential and commercial construction applications.

The PDQ 'K' Type Fast Build Housing system is designed to provide economic fast build, long term housing and community buildings wherever needed. Individually designed to suit our customers requirements, and can be transported by road or even airlifted from port to site with ease. Assembled in **days** ..... not weeks..... fully fitted and complete.

**The PDQ 'T' Type fast build housing system is designed to provide economic fast build, long term housing and community buildings in cold climates, where greater insulation is required to provide total comfort with maximum running cost savings.**

**Individually designed to suit our customers requirements and climatic location, the 'T' Type construction system can be assembled in days ... not weeks.**

# Community Buildings

The PDQ construction system is extremely fast and efficient, creating modern community buildings that are ideal for the most demanding climates and situations worldwide.

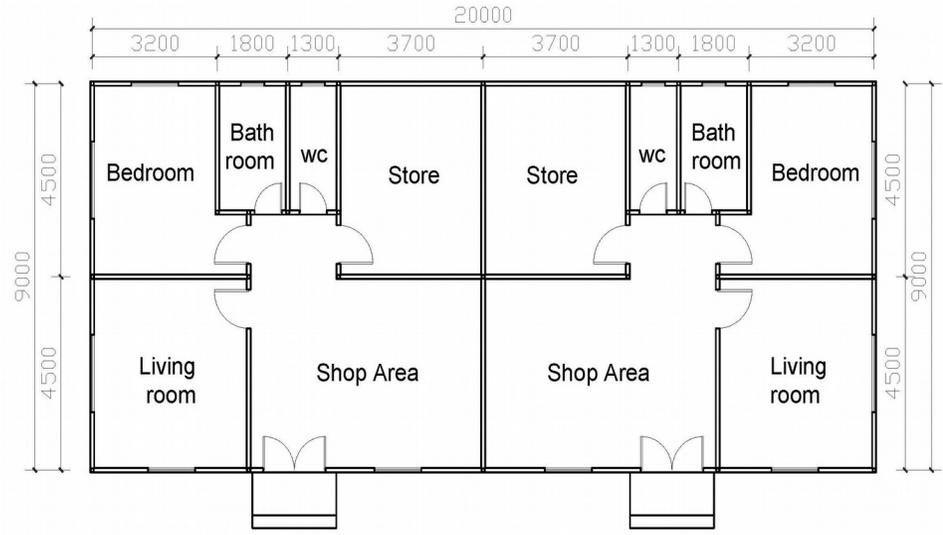

Earthquake safe to level 9 - Wind resistant to level 12 - Fireproof - Termite proof - Fully waterproof - High sound and thermal insulation. Energy efficient and ecologically sound.

The PDQ construction systems can facilitate all architectural and site planning needs to allow you to develop your required community buildings in the shortest time and at the most reasonable cost within your budget.

All PDQ community buildings can be supplied with all necessary internal specifications, including full plumbing, wiring, solar power and hot water, even furniture / fittings and all required equipment for immediate occupancy and use.
