QUALITY CONTROL PROCESS

1

AUDIT FACTORY

Assessing Vietnamese factories for quality and certifications, including HACCP, ISO, BRC, ASC, MSC, BAP, BSCI, and HALAL.

3

PRESHIPMENT INSPECTION

Our Quality Control team conducts random product testing, approving only those meeting the required standards for shipment.

5

PRODUCT DEVELOPMENT

Offering expert consultation services for quality enhancement, value addition to existing products, and new product development.

2

IN-LINE INSPECTION

Ensuring end-to-end product quality control, from raw materials to the final product, to maintain rigorous oversight.

4

LOADING SUPERVISION

Ensuring proper product sorting within containers, maintaining precise temperature conditions, and verifying accurate quantity.
