- **Admin:** users who create and control account permissions
- **Trade:** users who trade digital assets
- **Deposit:** users who deposit digital assets
- **Withdraw:** users who withdraw digital assets
- **Alter SAFE Settings:** users who change their permissions
- **Approve/Reject:** users who approve or reject an action
- **Read-Only:** users who handle accounting, tax and audit and receive read-only access

Customizable approval rules to secure your accounts

Clients can create rules to protect their assets and automate operational workflows.

- **Withdrawals:** Requires m-of-n approval to approve withdrawals of digital assets
- **Whitelisting Addresses:** Requires m-of-n approval to limit the transfers of digital assets to a list of approved addresses
- **Changing Rules:** Requires m-of-n approval to change specific rules
- **Changing Users:** Requires m-of-n approval to change users

Enterprise-level custody for everyone

Bringing the safeguards and mature infrastructure of traditional finance to the digital asset sector

Regulated Trust

Safeguard your digital assets with SAFE Trust Co., a trust company chartered under the State of Wyoming and regulated by the Wyoming Division of Banking.

Bankruptcy Protected

Clients always retain ownerships of their custodied assets, and SAFE Trust Co.'s creditors have no claim against them in the unlikely event of company insolvency.

Unlimited asset availability

We support a wide variety of digital assets, with more being added weekly.

Security doesn't need to slow you down

Integrated with the sFOX trading platform, SAFE allows customers to trade from the comfort of their custodial trust accounts without tedious and costly transfers while maintaining the highest security standards.

- Instant trade settlement to your custody account
- Real-time trading from custody
- Access to global liquidity

Stake straight from custody and earn rewards

- A seamless solution that enables secure participation without ever moving your funds from your trust account.
- You can hedge your staked assets by staking and then subsequently opening a short position on the same asset. While your funds are staked, you will be protected against negative price action with your short position.*
- Assets available include AVA DOT and ETH

(*) Only for clients eligible for Post Trade Settlement

Post-Trade Settlement: a faster and safer way to settle digital assets from custody

Clients benefit from the security and compliance framework of a regulated trust company

- Institutions are now able to trade while collateral is maintained within our regulated and insured custody
- No need to pre-fund trading activities
- Greater flexibility with clients holding long and/or short positions open for longer, up to 28 days
- Simply spend beyond your balance with no need to borrow first, request funds, top-ups, or rebalances.

The screenshot displays the sFOX trading platform interface. At the top, navigation tabs include Basic, Pro Trader, Portfolio (selected), History, Markets, 0 SAFE, Earn, and Staking. The Portfolio section shows a Portfolio Value of \$981,936,000.91, with buttons for DEPOSIT and WITHDRAW. It also displays Equity at \$600,200,000.00 and Available Exp. at \$100,200,000.00. The left sidebar has tabs for Overview and Settlement (selected). The main area is divided into two sections: ACTIVE POSITIONS and SETTLEMENT HISTORY.
