PROFESSIONAL SUMMARY

Award-winning **Broadcast Meteorologist** with nearly two decades of on-air experience delivering accurate, engaging, and dynamic weather forecasts. Proven ability to create compelling storytelling, produce high-impact graphics, and connect with audiences across television, digital, and radio platforms. Experienced in severe weather coverage, community outreach, and content production for major national and international events, including coverage for the Rio Olympics in 2016.

EXPERIENCE

WNDU NBC – South Bend, IN

On-Air Meteorologist & Morning Show Co-Host (2007 – 2023)

- Delivered accurate and engaging on-camera weather forecasts for live broadcasts.
- Created nowcasts, long-range forecasts, and real-time severe weather updates.
- Co-hosted a morning news program, providing weather and news coverage.
- Designed and produced high-impact graphics using WSI.
- Developed and managed online weather content for web and mobile platforms.
- Conducted weather awareness presentations at schools.
- Produced and voiced multi-market radio forecasts for expanded audience reach.
- Created feature weather and human-interest packages for NBC's Rio Olympic coverage.
- Produced weather-related content for the nationally syndicated AgDay farm program.
- Partnered with the National Weather Service to contribute to daily climate reporting.

WYIN PBS – Merrillville, IN

Chief Meteorologist (2005 – 2007)

- Led on-air weather coverage for a Chicago suburban PBS news station.
- Created and presented digital weather content for evening news broadcasts.
- Developed weather-related news features and in-depth climate analysis reports.
- Spearheaded the implementation of a new AccuWeather graphics.
- Secured weather sponsorships and underwriting partnerships with local businesses.

WGN-TV – Chicago, IL

Meteorologist / Production Assistant (2004 – 2005)

- Produced weather content for Chief Meteorologist Tom Skilling.
- Researched climate data and provided statistical reports for the Chicago Tribune.
- Assisted in graphic design projects for educational and print media.
- Supported studio production for evening newscasts and severe weather events.
