

Jeet Kamble

SENIOR CLOUD ENGINEER - AZURE & AUTOMATION

Profile

5.5 years of profound experience as an Azure Cloud Solutions Architect and Automation

Employment History

Senior IT Analyst, ZF India Pvt Ltd, Pune

MARCH 2023 – PRESENT

- Orchestrated **Incident Management** and **Change Management** processes, optimizing day-to-day Operations Management for support services.
- Designed and implemented a **comprehensive device management and compliance solution** using **Azure Automation and PowerShell**, enhancing security and governance measures across the organization. Provided cost optimization solution.
- Pioneered the establishment of an **end-to-end Azure DevOps** organization setup in production, encompassing **Azure Pipelines, CI/CD environments** for streamlined deployment.
- Executed the **migration of a Python application** in Django Framework to Azure Appservice
- Architected Automated pipelines, utilizing **Terraform/ARM** to create and deploy **Azure web apps with deployment slots**, ensuring uninterrupted service availability.
- Implemented Azure Administrative tasks, including the setup of **Disaster Recovery** plans for VMs, ensuring business continuity and resilience.
- Proficient in Azure Policies and adept at modifying RBAC policies on management groups, bolstering governance and compliance standards.
- Managed users and RBAC for newly deployed cloud resources, enforcing policies on resource groups and ensuring adherence to security best practices.
- Implemented a containerized application deployment pipeline on **OpenShift** using **Docker** for image creation and **Kubernetes YAML** manifests for defining deployments, services, routes, and config maps.
- Integrated **Argo CD** to enable declarative GitOps-based continuous delivery, ensuring automated and consistent rollout of application changes across environments.
- Demonstrated expertise in scripting languages such as **AE Scripts, Bash, PowerShell**, and **Python**, enhancing automation capabilities across UC4 objects and system workflows.
- Implemented monitoring and reporting for design solutions for Pods using **Grafana** along with modifying existing monitoring application to adapt.
- Integrated Legacy application and azure world using webhooks to Automation account runbooks.
- Provided support to deployed solutions and maintenance activities

MS Systems Analyst, Altera Digital Health Care, Pune

JANUARY 2020 – MARCH 2023

- Drove integration efforts for applications utilizing FIFO Queues, including RabbitMQ and **Grafana**, fostering efficient data flow and system interoperability.
