## TECHNICAL SKILLS

- ✓ Microsoft Azure
- ✓ OpenShift
- ✓ Atomic (UC4)
- ✓ Docker
- ✓ Terraform
- ✓ PowerShell
- ✓ Windows
- ✓ Linux
- ✓ Azure DevOps

## CERTIFICATIONS

- ✓ MS Azure Fundamentals
- ✓ Az-900
- ✓ MS Azure Administrator Associate Az-104
- ✓ MS Azure Developer Associate Az-204
- ✓ Microsoft Certified: Azure Solutions Architect Expert AZ-305

## ACHIVEMENTS

**Migration:** Migrated on premises monitoring app to Azure Webapp using Django REST Framework with modern CI/CD tools like Azure DevOps

**Containerization:** Build containers for as worker nodes for job executions and reduced the cost by 30%

**Optimization:** Optimized device management using Azure automation to remove non complaint devices and achieved 100% compliance

# JEET J KAMBLE

## Cloud Solutions Architect

### Profile

4.7 years of profound experience as an Azure Cloud Solutions Architect and Automation.

## Work Experience

### Cloud Engineer | ZF India

(March 2023 - present)

- Spearheaded the implementation of the **Cloud Adoption Framework**, ensuring seamless integration of cloud technologies into existing infrastructure.
- Orchestrated **Incident Management** and **Change Management** processes, optimizing day-to-day **Operations Management** for support services.
- Designed and implemented a **comprehensive device management and compliance solution** using **Azure Automation and PowerShell**, enhancing security and governance measures across the organization. Provided cost optimization solution.
- Pioneered the establishment of an **end-to-end Azure DevOps organization setup** in production, encompassing Azure Pipelines, Boards, and a robust branching strategy.
- Executed the **migration of a Python application in Django Framework** to Azure Serverless compute, leveraging DevOps to establish CI/CD environments for streamlined deployment.
- Managed branches in **Azure Repos** and created a strategy to move developed solution to production from Test Tenant to Production tenant. **Used Terraform to manage environments.**
- Architected Automated pipelines, utilizing **terraform/ARM** to create and deploy Azure web apps with deployment slots, ensuring uninterrupted service availability.
- Oversaw **service connections** and **managed identities** for resources linked to the release pipeline, enhancing security and access control.
- Led the planning and configuration activities, aligning product configurations with design specifications and providing expert assistance in issue resolution.
- Implemented **Azure Administrative tasks**, including the **setup of Disaster Recovery plans for VMs**, ensuring business continuity and resilience.
- Coordinated monthly **VM Patching activities using Azure Automation Account Update Management**, collaborating with internal teams and Microsoft support as required.
- Proficient in **Azure Policies** and adept at modifying **RBAC policies** on management groups, bolstering governance and compliance standards.
- Engineered an **Identity solution** for a Hybrid cloud model using Azure AD Connect, facilitating seamless user management across diverse environments.
- Managed users and RBAC for newly deployed cloud resources, enforcing policies on resource groups and ensuring adherence to security best practices.
- Demonstrated expertise in scripting languages such as AE Scripts, Bash, PowerShell, and Python, **enhancing automation capabilities across UC4 objects** and system workflows.
- Implemented monitoring and reporting for design solutions along with modifying existing monitoring application to adapt.
- Integrated Legacy application and azure world using **webhooks to Automation account runbooks.**
- Provided support to deployed solutions and maintenance activities
- Co-orchestrated the integration of a CI/CD pipeline within **Kubernetes**, improving development team output by 50%.
- Build **deployments and services in OpenShift** in development cluster and Production cluster
- Managed Application dependencies in **JFrog Artifactory** and Images in **Reh Hat Quay**

## INTERESTS

- ✓ Playing music instruments
- ✓ Travelling

## Systems Analyst | Altera Digital Healthcare

(Jan2020 - March 2023)

- Drove integration efforts for applications utilizing FIFO Queues, including RabbitMQ and Grafana, fostering efficient data flow and system interoperability.
- Formulated terraform configuration files to facilitate the deployment of artifacts, enhancing in-house monitoring applications and infrastructure.
- Provided comprehensive support throughout the Interface & Application lifecycle across various environments, from Production to QA, ensuring seamless operation and performance. Spearheaded the creation and update of POC documents.

## Education

Bachelors of  
Engineering  
2016 – 2019

Bachelors in electronics and  
telecommunication engineering with  
7.24 CGPA

Diploma in  
Engineering  
2013 – 2016

Diploma in Electronics and  
telecommunication with 81  
percentage

SSC  
2012 - 2013

State Board of Maharashtra with 85  
percentage

## Personal Information

Name	: Jeet Kamble
Date of Birth	: 24-07-1997
Nationally	: Indian
Gender	: Male
Language Known	: English, Hindi, Marathi
