INTERNATIONAL SCHOOL

# EXPERIENCE DAY

VALLEMAR INTERNATIONAL SCHOOL

//////////////////// **MANIFESTO** //////////////////////

To Live Vallemar Is to Understand Its Essence.

The **Experience Day** at **Vallemar International School** is a day designed for prospective students to discover, from within, the rhythm of our educational community. Over the course of a full school day, each participant joins a group corresponding to their academic stage and shares with our students their daily routine — the way they learn, connect, explore, create and grow.

Beyond observing, they will live it. Because to understand Vallemar is to experience its methodology, its international atmosphere, its culture of effort and excellence. Through this immersion, visiting students will not only discover our classrooms, but also the emotional energy that defines them: collaboration, intellectual curiosity, and the sense of belonging that drives every project.

The **Experience Day** is part of our admissions process and represents a key moment of connection between families and the school. It allows each student to discover whether Vallemar is the environment where they can truly unfold their full potential.

For our team, it is an opportunity to demonstrate — through actions rather than words — the distinctive value of our educational model: an international, innovative and deeply committed approach to the integral development of every student.

Each **Experience Day** is an invitation to feel the authenticity of Vallemar.

To see the future from within.

To become part of a community that inspires, transforms, and transcends.

## EARLY YEARS EDUCATION

The first contact with **Vallemar International School** is always a sensitive and emotionally meaningful experience. At this stage, the aim of the **Experience Day** is for each child to become familiar with the school's spaces, routines and emotional atmosphere, perceiving Vallemar as a safe, stimulating and welcoming environment.

**Duration: 9:00 a.m. to 12:30 p.m.**

The morning is structured to accompany the child on a gentle journey — from curiosity to confidence — through activities that combine emotional, sensory and playful dimensions.

Throughout the day, children take part in welcome routines and circle time, where they are introduced to the group and share songs or guided conversations that encourage expression and social interaction.

They then engage in symbolic play and psychomotor activities, allowing teachers to observe how each child integrates, interacts and responds to the stimuli of their surroundings.

Snack and outdoor playtime provide a relaxed moment of natural observation, giving teachers the opportunity to assess each child's adaptation and wellbeing in a spontaneous setting.

Afterwards, pupils participate in an art or English-based activity — two methodological pillars in Early Years — which combine creativity, exploration and early language acquisition in a hands-on, experiential way.

The morning concludes with a calm farewell, during which the class teacher shares with families a brief reflection on the child's adaptation and emotional response to the environment.

**Materials required:** water bottle, a change of clothes, mid-morning snack and, if desired, a soft toy or comfort object.

A small symbol that connects them with home and supports their emotional integration.

At this stage, the **Experience Day** allows each pupil to experience a full academic day, discovering the balance between learning, coexistence and bilingualism that defines education at Valleymar International School.

The purpose is for each child to live, first-hand, the classroom dynamic, the active methodological approach and the sense of cohesion that characterise our learning environment.

**Duration: full day (9:00 a.m. to 4:00 p.m.)**

The day begins with a welcome at the School Office, followed by a greeting from the teaching team and the introduction to their Buddy — a student companion who will accompany them throughout the day, acting as guide and link with the group.

From the very beginning, the visiting pupil takes part fully in the lessons of the assigned class, integrating naturally into everyday activities: subjects taught in English, hands-on mathematics, cooperative projects and guided reading sessions, among others.

At midday, pupils may enjoy lunch in the school dining hall (optional; please check price at the School Office), sharing a time of social interaction and discovering the importance that Valleymar places on a healthy, balanced diet as part of its educational culture.

The day concludes with an institutional farewell and the presentation of the “**Valleymar Experience**” Diploma — a symbol of their time at the school and of the emotional connection that begins to form with our educational community.

**Materials required:** water bottle, mid-morning snack, pencil case and sportswear (if indicated).

Everything needed to immerse oneself, for a day, in the genuine rhythm of school life at Valleymar.

In Secondary, the **Experience Day** represents a true immersion into Vallemar's international and collaborative model — designed for growing minds seeking a dynamic, rigorous and inspiring learning environment.

The goal is for each student to discover, first-hand, the value of academic and personal guidance, international projection, and the maturity of the classroom atmosphere.

**Duration: full day (according to the school timetable)**

The day begins with a personalised welcome from the Head of Studies, who provides a brief introduction to the school's educational model, curricular structure and the various opportunities for personal and academic growth offered by Vallemar.

The student then joins a reference group and participates actively in a range of subjects, with particular focus on English, Science and Humanities — areas in which Vallemar's methodology promotes research, critical thinking and effective communication.

Throughout the day, visitors have the opportunity to experience the multicultural environment of the school, the approachability of the teaching staff, and the importance of teamwork as a driving force of learning.

During lunchtime (optional; please check price at the School Office), students share a more informal space with classmates and teachers, strengthening their natural integration into the daily life of the school.

At the end of the day, the teaching team conducts a brief review of the experience, focusing on the student's adaptation, attitude and motivation, providing families with a clear insight into their fit within Vallemar's academic environment.

**Materials required:** water bottle and mid-morning snack.

A day of learning, inspiration and discovery, within an environment that fosters talent and confidence in one's own potential.

## **PURPOSE**

At **Vallemar International School**, every day is an opportunity to discover what we are truly capable of becoming.

The **Experience Day** does not end when the final bell rings; its true significance begins in the impression it leaves — in the quiet certainty of having been, even for a moment, part of a community that educates with conviction, excellence and meaning.

This experience does not seek to impress, but to reveal.

To reveal a different way of understanding education: integral, international and profoundly human. A model that inspires us to think, to create, and to build a future with purpose.

For those who walk through the doors of Vallemar are not simply entering a school; they are entering a way of understanding learning — and life itself.

Here, every student is a project in progress, every teacher a guide, and every family an essential part of a shared vision: to form confident, inquisitive individuals, conscious of their place and role in the world.

The **Experience Day** is, in essence, a meeting point between educational vocation and the future of those who live it.

An invitation to look towards tomorrow with the certainty of belonging to something greater — a community that teaches, supports and inspires with the same purpose that has defined us since the beginning.

## **GENERAL CONDITIONS**

### **Family Authorisation**

Participation in the Vallemar Experience Day requires the prior submission of the authorisation form, duly signed by the family or legal guardians. This document must be presented before the day of the experience, confirming that the family has read and accepted the conditions established by the school.

### **Coverage and Safety**

Throughout the entire day, visiting students will be covered by Vallemar International School's insurance policy, under the same conditions as the rest of the student body. The school guarantees full supervision and guidance at all times by the teaching staff and the personnel responsible for each educational stage.

### **Non-Binding Nature**

Participation in the Vallemar Experience Day is purely informative and exploratory. It does not imply any commitment to enrolment, either from the family or from the school. The aim is to provide a real, lived experience that helps families make decisions with clarity and confidence.

### **Internal Pedagogical Assessment**

At the end of the day, the teaching team will prepare a brief internal assessment regarding the student's adaptation, participation and attitude during their stay. This report, confidential and non-evaluative in nature, will serve as an orientation tool for the Admissions Department and for the student's potential future educational pathway at Vallemar.
