

# The Art of Accessorizing

Our Filatov kimonos boast of vibrant prints worthy of catching anyone's eye. However, when you're putting together a complete look, the kimono alone may not be enough. What can you do to elevate your kimono or any fashion look? Accessories.

Where to start? Don't worry, we've got you covered! Accessorizing is an art, and with a few tips and tricks, you can become a fashion pro in no time.

Firstly, it's important to choose the right pieces. Don't be afraid to mix and match different textures, colors, and sizes to create a unique look. When selecting accessories, consider the occasion, outfit, and personal style. For example, statement earrings can elevate a casual outfit, while a statement necklace can add sophistication to a formal look.

Next, aim to create a cohesive look. Accessories should complement your outfit, not overwhelm it. When accessorizing, keep in mind the overall color scheme and style of your outfit. Consider the neckline and silhouette of your clothing to determine which accessories will work best. For instance, our gold and white kimono is likely to pair well with warm toned or neutral accessories like gold earrings, white slides and a white purse.

Lastly, don't be afraid to experiment and have fun with your accessories. Accessories are a great way to express your personality and style. Play with different combinations, and don't be afraid to step outside of your comfort zone.

In conclusion, accessorizing is an art, and with a little practice, you can master it. When styling our kimonos or any other outfit, remember to choose the right pieces, create a cohesive look, and have fun with your accessories. By following these tips and tricks, you'll be accessorizing like a fashion pro in no time.
