

Dear Cat Parents,

We've missed you! 🐱

We don't come empty handed: In the last couple of months, our team has been working tirelessly to improve our products and services for the sake of your convenience.

Among these improvements, we would like to announce the availability our new **MOBILE APP** to make Cat Communication Paw-sible! 🐱

- Get **INSTANT** insights on your cat's activity straight to your phone.
- 24/7 **MONITORING** of cat's health for longer and better quality of life.
- Track your cat's **LOCATION** to ensure its safety.
- Get **IMMEDIATE UPDATES** on our new promotions, products and services.

We've done several tests and we think its purr-fect! But don't take our word for it; test it for yourself. If you *do* face any issues or have any questions, please don't hesitate to contact us. We'd love to hear from you!

Download Our App today. Available on Android and IOS.

Lots of love,

Your Feline-loving Friends 🐱
