Clients: Digital copies of photos for portfolio of a resolution suitable for internet viewing / display on any PC or device. Prints/albums to be purchased at very affordable cost if desired.
Photographer: \$250 Session Fee. Photos for portfolio usage.

Location

Smoking: No smoking in shooting room.

Pre Shoot Preparation

Hair and Makeup: Will have time to touch up if needed, but model should be ready with hair and makeup done for start time.

Clothing: Check planned clothing for stains and missing buttons... at least a day or two before the shoot. Look for any accessories at same time.

During Shoot

Refreshments: Photographer will bring his own refreshments.

Alcohol/drugs: Should be no heavy drinking/smoking during the shoot. Should not drink "too much" prior to any shoot. It can show in the eyes. Cannabis does as well. If model is inebriated, consent also comes into question.

Food: As this is a short shoot no meals are provided. Client is free to have snacks / meal for themselves if desired. Please advise photographer of any allergies.

Cell Phones: Cell phones are allowed as long as they do not become a distraction during the shoot. No Behind the scene shots or video allowed unless permission is given beforehand.

Other Cameras: Not permitted without prior permission.

Escorts: Escorts are permitted but would need to be brought to the photographer's attention prior to the day of the shoot.

What to bring

- Wardrobe: Lingerie as previously discussed in messaging. As the shoot is at the client's home, everything should be available. Preparing it the day before though ensures nothing gets forgotten
- Shoes: Shoot is at client's home. Nothing to Bring
- Jewelry: As per Client's choice. (Larger is better. Small diamonds might be nice but don't show up very much in photos other than real close-up.)
- Accessories: Hair clips, pins. Scarves... Nothing required, but anything ready might be used
- Makeup: At the client's choice.
- Props: Photographer will be bringing rope and blindfold and other fetish props (Will be discussed in messages beforehand)

Post Shoot Info

- Time to Edit: Typically 2 weeks turn around for photos. If there are other time constraints, photographer will inform model.
- Files received: Client only gets edited files. Not all photos are keepers. Rejects are rejected for various reasons (Too similar to other good ones, lighting was not perfected, Client was blinking...) Expect rejects from all shoots.
- Edits by Client: **Photos are NOT to be edited by Client or by other photographers.** (This includes adding Instagram filters) Minor cropping for photos to fit on social media (Profile pics for instance) is allowed but definitely not to remove the logo. (Logo is removed on any prints)
- Crediting: Any photos posted by the Client should have credit be given to "Eternal Photos" and appropriate links (FB/IG or webpage) when possible.
- Questions: There is a lot of information here. If there is anything not clearly understood, please ask. It's probably because it was not clear enough. If there is anything understood but think should be changed, let the photographer know prior to the shoot.
