ABOUT US

AGHOLDS burst onto the scene with a fiery passion and a daring vision in 2017. To infuse the climbing community with fresh energy by seamlessly blending innovative design with the latest materials science. Fueled by creativity and a deep commitment to quality, we're not just crafting climbing holds – we're fostering experiences, breaking barriers, and shaping the future of climbing, one hold at a time.

We reimagine the possibilities within the world of climbing – ANTI GRAVITY.

ABOUT US

PUMAX

Since 2017, AGHOLDS has been actively developing PU (Polyurethane) materials for climbing holds. By 2018, we successfully completed the development process and incorporated these materials into our climbing holds production. Our PU material offers numerous advantages, including high strength, impact resistance, lightweight properties, vibrant colors, and eco-friendliness.

After five years, PUMAX, our innovative polymer compound material created in collaboration with the National Institute of New Materials, will make its debut in AGHOLDS' new climbing holds production in 2023.

ECO-PLASTIC

In 2024, we launched a new Macros material solution, ECO-PLASTIC, a thermoplastic material. This material is lightweight, high-strength, and does not produce any harmful debris or dust during use. ECO-PLASTIC is molded in one piece during production, with no pollution generated, and its main product components are 100% recyclable.

HOLDS ATTACHMENT

- Always use all available fixation points.
- With central bolt hole: fix with M10 bolt.
- Without central bolt hole: use all screw holes.
- PUMAX holds are bendable and can be mounted on slightly uneven surfaces.
- PUMAX products allow drilling for additional screw holes if required by route setting.
- Overlay holds may be attached on top of PUMAX holds.

MACROS ATTACHMENT

- Must use all specified fixation points.
- Thermoplastic macros are flexible, but not recommended on uneven surfaces.
- Macros can also be overlaid onto other flat products such as large macros or plywood volumes.
- Install only on flat, certified climbing wall panels (18 mm plywood or equivalent).

TECH INFO

PLYWOOD VOLUMES ATTACHMENT

- All fixing points must be used.
- Wall contact must be flat and full-surface.
- Do not mount on concave/convex surfaces.

STORAGE

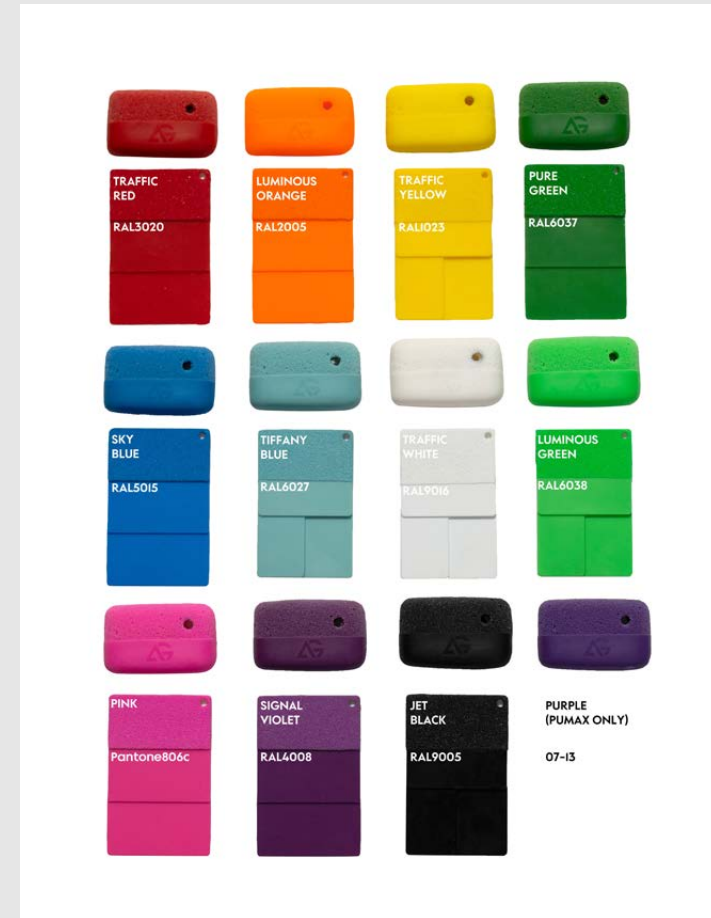

- Store in dry, ventilated areas, avoid UV exposure.
- Temperature: -20°C to 40°C .
- Do not store under pressure or tension.

MAINTENANCE & WASHING

- Inspect regularly before and after each use.
- Replace damaged holds immediately (cracks, sharp edges, loose inserts).
- Do not soak or immerse.
- High-pressure cleaning: keep ≥ 50 cm distance.
- Do not use aggressive chemicals unless approved by AGHOLDS.

COLORS

We offer 12 colors to choose from, and the standard color scheme is as follows:

Disclaimer: The colors displayed on a monitor may differ from the colors you will receive. If you require a color match or wish to see a specific color, please contact us for a sample.

COLORS

YAOJUN GE

Yaojun “The Teacher” Ge is our head shaper.

After completing his master's degree, he taught physical education at a high school and was responsible for training youth climbers. He has successfully coached numerous athletes at the national level.

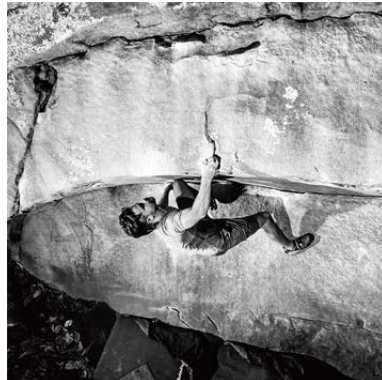

In addition to his coaching responsibilities, he actively contributes to the development and design of new climbing holds for AGHOLDS. He is passionate and imaginative when it comes to creating climbing holds.

CHRISTOPHER NEAL

Chris had his first experience with climbing at the age of 16, by the age of 18 he was climbing regularly at the gym and outside. Shortly after he built a homewall and bought his first holds where his inspiration for designing holds began.

With some local craft store floral foam and basic sculpture tools he began crafting his first designs. He received his first opportunity at commercial shaping for the brand Vision Climbing and since then he has worked with multiple companies as well as building his own brand Capital Climbing. Chris is currently living in South Carolina.

KEVIN CHEN

Kevin is one of AGHOLDS' in-house shapers.

Blending his passion for climbing with a strong background in art and design, Kevin began his journey as a shaper in 2020 while pursuing a Master's degree in Design in London. In 2023, he officially joined AGHOLDS' shaping team, where he continues to infuse creativity and expertise into his craft.

KEGAN MINOCK

Kegan started climbing in 2003.

While being a competitive climber, he has been routesetting since 2007. His was always artistic and thought that creativeness transferred well into learning how to design climbing holds.

In 2014, he sold his first designs to fellow AGholds shaper Chris Neal. Since then, he has become a freelance holds shaper and has shaped for over a dozen different brands. He currently lives in Colorado Springs, CO where he is the head Routesetter at Gripstone Climbing.

LOUIE ANDERSON

Louie "The Legend" Anderson started shaping from 1980s. He is one of the most experienced shapers.

Louie has shaped for dozens brands, including Dimension Volumes, Kingdom Climbing , Element Climbing, Working Class and So ill, etc.
