ABOUT US

67

TEAM

69

A woman with long brown hair, wearing a pink t-shirt, is holding a bright yellow climbing board. She is looking down at the board with a slight smile. A spray of white chalk dust is coming out of the board, creating a dynamic and energetic feel. The background is dark, making the yellow board and the white dust stand out.

DREAMERS DUAL TEX

The Dreamers are a set of 22 fiberglass Macros. Designed for competition climbing, whether lead climbing or bouldering.

CANDLES DUAL TEX

The first macros from Blokholds. Aesthetic, ergonomic and extra large. Definitely an eyecatcher!! Routesetters can create unique problems with the Candles, especially with the super large and protruding macros of the set. Available in dual-texture, mono-texture and even in no-texture for some special spice on the next competition.

CURVES

The Curves are shaped for the average climber. With the large radius and the skin-friendly material, the jugs and incut slopers are super comfortable to grab. The Holds allows to create easy but quite technical routes and boulders. An absolute must-have for every commercial climbing gym.

The PE-Set consists out of 28 jugs, 22 Slopers, 32 crimps/edges and 20 footholds.

CURVES

Comfortable Jugs for easy and fun routes.
The flat design allows Routesetters to build technical moves. At least two Woodscrew Holders for easy mounting.

A close-up photograph of a blue climbing wall. Several holds are visible, including a large jug and a sloper. A hand is holding a black brush with the brand name 'Blak holds' on it, and is brushing a hold. The background is dark, making the blue wall stand out.

COASTS

The perfect all-rounder. The 184 holds form a broad spectrum from jugs to bad crimps and slopers. On every angle of the wall the routesetters can create challenges for beginners and professionals alike. Crimpy boulder testpiece, easy endurance route with jugs, dynos or a technical slab. With these holds everything is possible.

The PE-Set consists out of 22 jugs, 14 Slopers, 98 crimps/edges and 50 footholds.

COASTS

from positiv jugs to roof-jugs.
All of them have 3 wood-screw holes for
easy routesetting.

ABOUT US

After all these years in climbing gyms and on the rock, all the routesetting days and the wonderful moments with the climbing community, it was the next logical step for us to design our own climbing holds. Holds that encourage the creativity of routesetters and help climbers to enjoy our sport even more. Our holds are the perfect combination of Eriks knowledge about modern competition and commercial setting and Jans shaping skills. With our experience and our great partners, we try to give climbing gyms and routesetters what they need. High quality holds with fair prices and short delivery times.

Jan Wagner
Founder, Shaper

Jan has been a routesetter and rock climber for over 10 years. He spend hundred of days setting in several gyms and visited the best climbing areas in the world. Now he puts his experience and his drive for perfectionism into shaping.

Erik Heldmann
Founder, Routesetter, Shaper

Erik has been working as the chiefroutesetter at the Studio Bloc gyms for several years. Here he get in contact to the customers and gets to know exactly what is needed for commercial routesetting. In addition to his work as a chiefsetter, he also travels around the world for national and international competitions. This gives him the opportunity to exchange ideas with other route setters from all over the world and to see what holds are needed.
