Outdoor Vitrified Tiles

Rock Era

20mm
THICKNESS

PROTECT SURFACE

To minimize the roughness created by the cliffs, we apply the unique micro protect-particles that cover the deep valleys creating the smoothest anti-skid surface without affecting the cliffs.

TRADITIONAL ANTI-SKID SURFACE

When we observe the regular anti-skid surface under a microscope, we notice higher cliffs that create valleys making the surface rough, unpleasant to touch, and difficult to clean and maintain.

INTRODUCING ROCKERA OUTDOOR TILE

600x**600mm**
600x**900mm** — Available Size

Dive deep inside the heart of art and enhance your spaces to create a seamless visual feast with our heart-warming collection of full-body vitrified tiles in four colors and the convenient size of 600x600mm that will give your spaces a breath of life.

When you enter a place, the first thing you come across is the outdoor space that defines the decor style of the place. So, it is extremely important to design an outdoor that is welcoming and catches the eye of every onlooker.

The RockEra collection by Segam creates a great aura for outdoor spaces with its eye-catching designs and beautiful appeal.

OUTDOOR TILES
FOR EVERY
ADVENTURE!

TAKING CARE MADE SIMPLE

RockEra makes alfresco living fashionably simple. The anti-skid surface lets your feet glide smoothly across sharp cliffs and stones as if walking on clouds – the microscopic peaks and valleys keep out dirt while keeping your soles happy. No need to scrub away green invasion either. The anti-algae forcefield helps these 20mm warriors flaunt their true vibrant colors for decades without fading or a single deep clean.

From poolside parties to rainy season relaxation, RockEra outdoor tiles withstand it all while looking sleeker than ordinary tiles. Just an occasional sweep or quick power wash rinse to refresh. Go ahead, take these ever-gorgeous, low-maintenance beauties out for a spin this weekend. Their tough beauty resists weather and wear for easy elegance that lasts ages.
