

# DATASHEET READY SPRAY

Versatile Ready-to-Use Spray Disinfectant  
for Effective Surface Cleaning and  
Protection

## CHEMICAL COMPOSITION

Benzalkonium chloride, Didecyldimethylammoniumchloride and excipients

## PRODUCT SPECIFICATIONS

Ready Spray is a ready-to-use disinfectant with a broad-spectrum antimicrobial action from quaternary ammonium compounds. Free of aldehydes, phosphates, and alcohol, it includes a corrosion inhibitor for safe use on metal surfaces. It's compatible with glass, ceramic, silicone, plastic (including Plexiglas), wood, and stainless steel.

## AREAS OF USE

This disinfectant is ideal for fast, thorough cleaning of both horizontal and vertical surfaces in critical hospital settings. It's especially effective on incubators, PVC epoxy areas, floors, walls, ultrasound probes, dental micromotor tips, and medical equipment in ENT units, operating rooms, and intensive care units.

## ANTI-MICROBIAL CHARACTERISTICS

Bactericide, Fungicide, Virucide, Antimycobacterial, Tuberculocide
