

DATASHEET READY SPRAY WIPE

Ready Wipes Surface and Floor Sanitizers

PRODUCT SPECIFICATIONS

Ready Spray Wipe is a ready-to-use disinfectant with a broad antimicrobial range due to its quaternary ammonium compounds. It's free of aldehydes, phosphates, and alcohol, and includes a corrosion inhibitor, making it ideal for surfaces with metal components. Compatible with glass, ceramic, silicone, plastic (including Plexiglas), wood, and stainless steel.

AREAS OF USE

This disinfectant is ideal for quick, effective cleaning of both horizontal and vertical surfaces in critical hospital areas. It's particularly suited for incubators, PVC epoxy zones, floors, walls, ultrasound probes, dental aerators, micromotor tips, and medical equipment used in ENT, operating rooms, and ICU environments.

ANTI-MICROBIAL CHARACTERISTIC

Bactericide, Fungicide, Virucide, Antimycobacterial, Tuberculocide
