1ST LECTURE: DIET AND NUTRITION

INTRODUCTION TO ENERGY MEDICINE

What is Energy Medicine ?

It is possible there exist human emanations that are still unknown to us, Do you remember how electrical currents and unseen waves were laughed at ? The knowledge about man is still in its infancy .

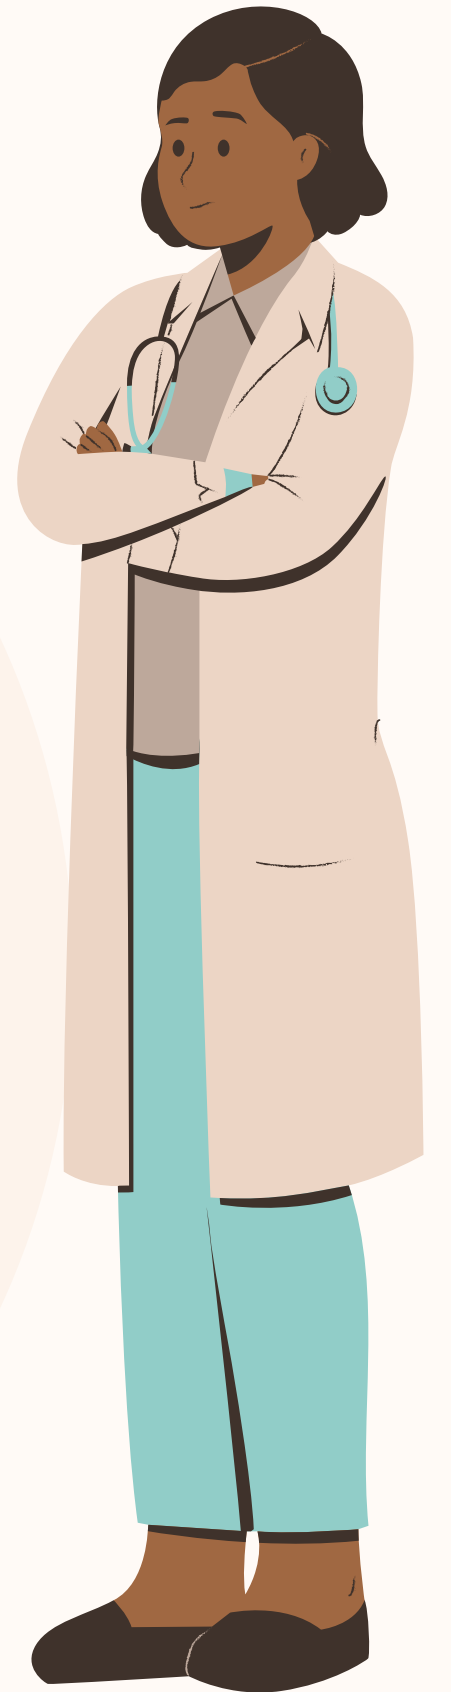

(Albert Einstein)

Why work with the Body's Energy System

All Living Organisms emit field. - Semyon D. Kirlian, USSR (1900-1980)

String Theory states that everything is made of tiny strings of energy, each with its own unique frequency.

Three Predominant Regulating Domains : 1) EM, 2) Electric, 3) Biochemical.

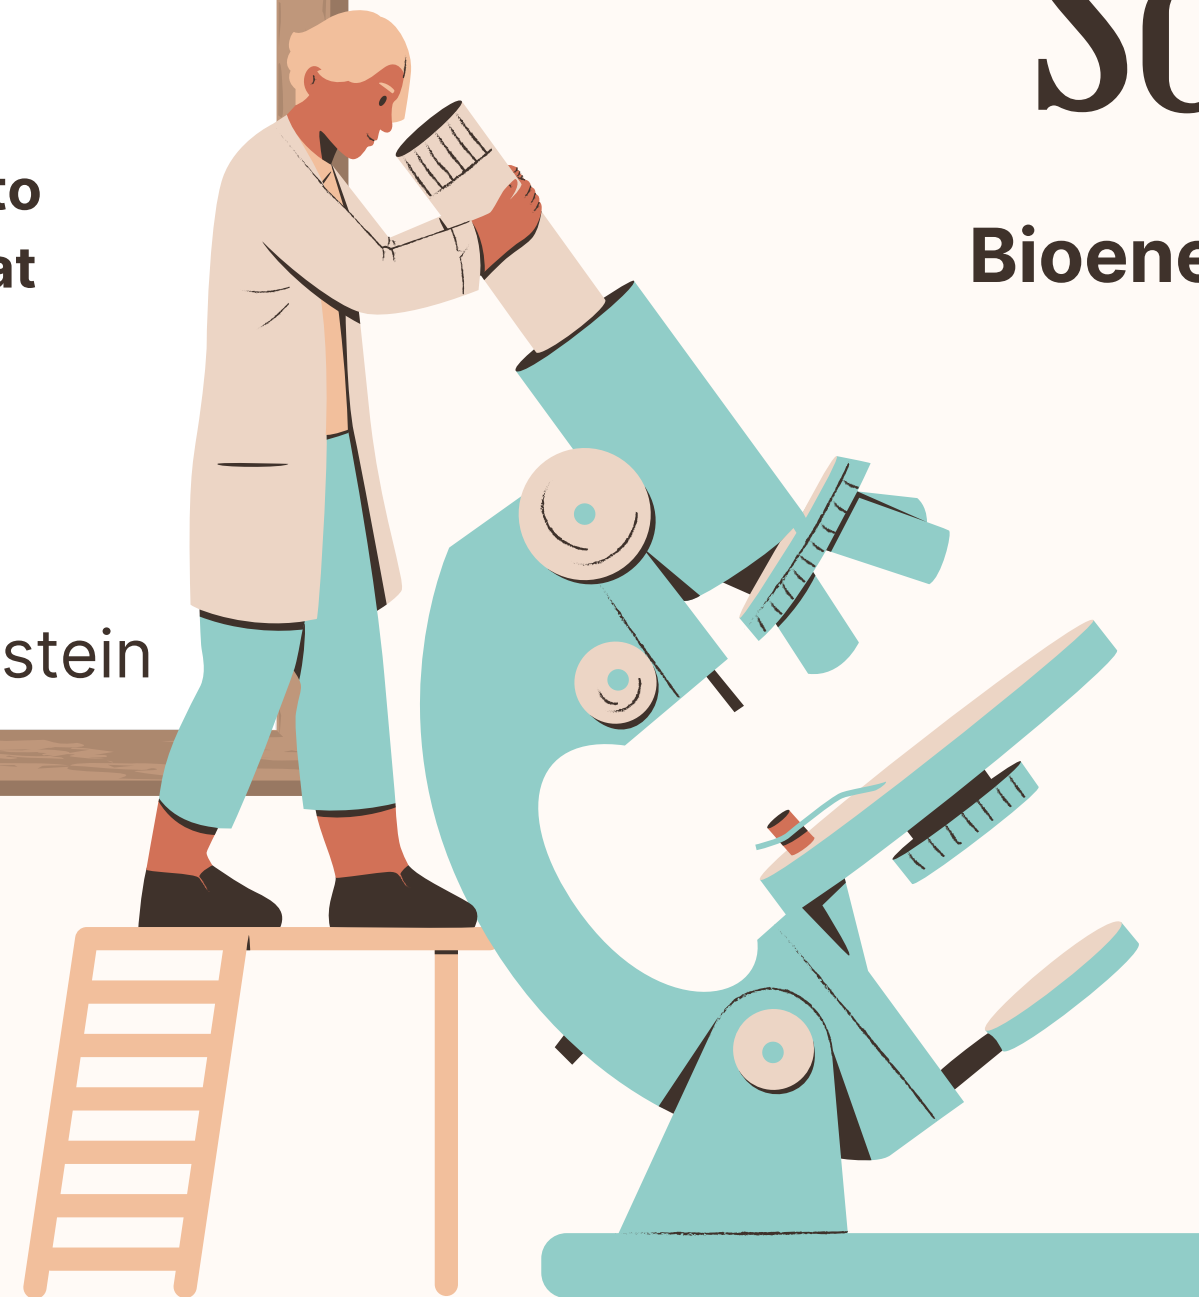

THE FUTURE OF MEDICAL SCIENCE

Bioenergetic Testing

Dr Savely Yurkovsky states that : "I must tell from my own personal experience in reviewing the great body of literature that exists in the world today in various countries on the subject of bioenergetic testing, that when properly performed, it is far superior to any diagnostic modality that exists today in the world, it is far superior, in my opinion, to any blood, laboratory or imaging techniques in the sense of depth of penetration that these are capable of and their ability to register even minute deviation in bio-cellular fields that takes place on the cellular, sub cellular, and intracellular structures, including the DNA.

All matter is energy field. ~Albert Einstein

ENERGY MEDICINE VERSUS CURRENT MAINSTREAM ~ A COMPARISON

Rationalism and Empiricism

Reductionists And Holistic Approach
Islam, a complete code of life
Balance and Moderation

What do Symptoms Mean ?

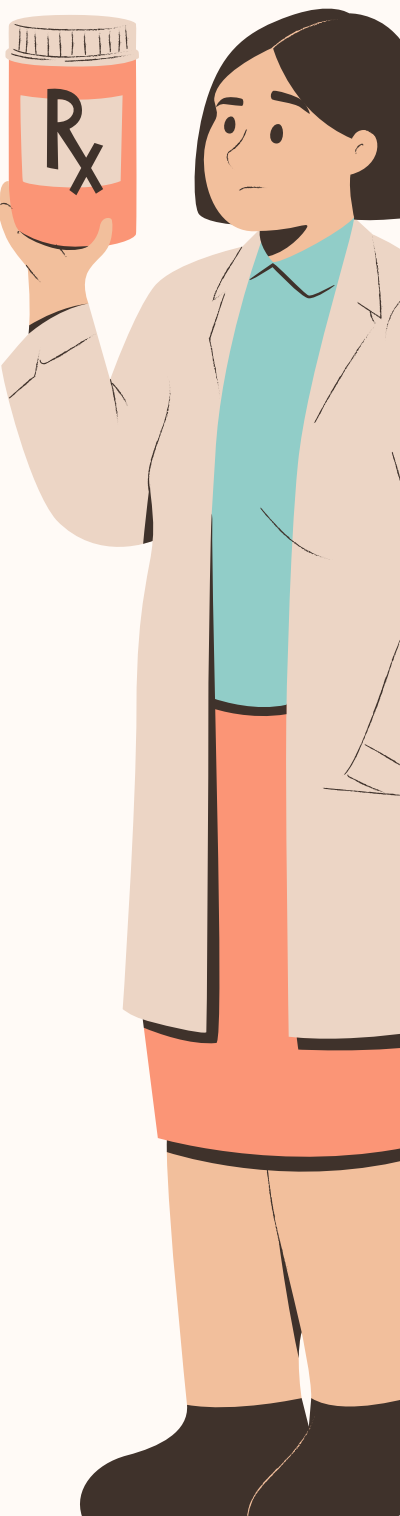

Expressing a conscious conflict.
A need to set a boundary.
A cry for a need to be met.
A cry to heal an earlier trauma.
A symbolic representation of a blocking belief

The Biology of Belief

Fear/Protection or Healing/Love.
Body Chemistry is governed by
quantum cellular fields ~Prof. Murray
