Creativity for Peace

Deep in our hearts, everyone longs for **love, peace** and **justice**.

- How do I want to **visualize** this heart's desire?
- Which message do I want to convey to those who caused war and terror **around all the world**?
- How would I like to encourage symbolically the victims of war, what symbolic message would I like to deliver to the mentally and physically injured, the bereaved, the refugees, the helpers, ...?
- What great injustices do I see in our societies, who – sooner or later – will lead to hate, or even, in further escalations, could give rise to future wars?

- Proposal: Create on this topics short poems, drawings, paintings, ... and photograph them! Or make video clips, ... *Be creative !*
- Proposition: Send the video clips & photos to your elected representatives (for ex. on national or EU level), organize exhibitions, ...
- You are welcome to send copies at EUROPASSION: peace@europassion.eu (for publication on the EUROPASSION website)
- Remember to get permission for publication from everyone involved.
