Job Title: **React Mobile Developer (Expo)**

Experience: 3+ Years
Location: Hyderabad / Bengaluru / Chennai / Pune
Employment Type: Full-Time/Contract/Remote

Job Summary:

We are looking for a highly skilled and innovative **Senior React Mobile Developer** with 5+ years of experience to join our team. The ideal candidate will have extensive expertise in building mobile applications using **React Native** and **Expo**, along with a deep understanding of cutting-edge libraries and technologies. At Samvida Labs You will be responsible for developing high-performance, secure, and scalable mobile applications that leverage advanced features such as **geospatial libraries**, **maps**, **i18n (internationalization)**, and more. The candidate must be committed to delivering fast, high-quality solutions while ensuring robust data security practices.

Key Responsibilities:

1. **Mobile Application Development:**
   - Design, develop, and maintain high-quality mobile applications using **React Native** and **Expo**.
   - Implement cutting-edge features such as **geospatial mapping**, **real-time data visualization**, and **multi-language support (i18n)**.
   - Optimize applications for maximum performance, scalability, and responsiveness across iOS and Android platforms.
2. **Cutting-Edge Libraries & Tools:**
   - Utilize advanced libraries such as **React Native Maps**, **Mapbox**, **Turf.js**, and **i18next** to build innovative features.
   - Integrate **AR/VR libraries** (e.g., **ViroReact**, **ARKit**) for immersive user experiences.
   - Leverage **machine learning libraries** (e.g., **TensorFlow.js**, **ML Kit**) to enhance app functionality.
3. **Data Security & Compliance:**
   - Ensure applications are built with robust data security measures, including **encryption**, **secure authentication**, and **compliance with GDPR** and other relevant regulations.
   - Implement secure API integrations and data storage solutions (e.g., **Firebase**, **AWS Amplify**).
   - Conduct regular security audits and vulnerability assessments to maintain application integrity.
4. **Performance Optimization:**
   - Optimize app performance using tools like **Hermes**, **Flipper**, and **React Native Reanimated**.

SAMVIDA LABS
www.samvidalabs.com/careers
humanresources@samvidalabs.com

- o Monitor and improve app performance using analytics tools like **Sentry** and **New Relic**.
5. **Collaboration & Agile Development:**
   - o Work closely with cross-functional teams, including designers, product managers, and backend developers, to deliver high-quality solutions.
   - o Participate in **Agile/Scrum** processes, including sprint planning, stand-ups, and retrospectives.
   - o Ensure timely delivery of features and bug fixes in fast-paced development cycles.
6. **Testing & Quality Assurance:**
   - o Write unit and integration tests using tools like **Jest**, **Detox**, and **Cypress**.
   - o Conduct thorough testing to ensure bug-free and seamless user experiences.

Qualifications:

- Bachelor's or Master's degree in **Computer Science**, **Software Engineering**, or a related field.
- 3 years of professional experience in **React Native** and **Expo** development.
- Strong portfolio showcasing mobile applications with advanced features (e.g., geospatial mapping, AR/VR, i18n).
- Proficiency in **JavaScript/TypeScript** and modern React practices (e.g., **Hooks**, **Context API**).
- Experience with **geospatial libraries** (e.g., **Mapbox**, **React Native Maps**, **Turf.js**).
- Knowledge of **i18n libraries** (e.g., **i18next**, **react-i18next**) for multi-language support.
- Familiarity with **data security best practices** and tools (e.g., **JWT**, **OAuth**, **SSL/TLS**).
- Experience with **state management libraries** (e.g., **Redux**, **MobX**, **Recoil**).
- Strong understanding of **RESTful APIs** and **GraphQL**.
- Knowledge of **CI/CD pipelines** and tools like **GitHub Actions**, **Bitrise**, or **Fastlane**.

Preferred Skills:

- Experience with **AR/VR development** using libraries like **ViroReact** or **ARKit**.
- Familiarity with **machine learning integration** using **TensorFlow.js** or **ML Kit**.
- Knowledge of **backend technologies** (e.g., **Node.js**, **Express**, **Firebase**).
- Experience with **progressive web apps (PWAs)** and **offline-first development**.
- Understanding of **blockchain technology** and its integration into mobile apps.
- Familiarity with **performance monitoring tools** like **Sentry** and **New Relic**.

Why Join Samvida Labs?

- Opportunity to work on cutting-edge projects with the latest technologies.
- Collaborative and innovative work environment.
- Competitive salary and benefits package.
- Professional development opportunities and access to the latest tools and resources.
