# Agency

commission

agency A: total commission item = 100000+500000+50000+500000=1150000

so the rate for A is 9%

A's commission from B:  $9\% - 5\% = 4\% * 100000 = 4000$  INR

A's commission from C:  $9\% - 7\% = 2\% * 500000 = 10000$  INR

A's commission from D:  $9\% - 4\% = 5\% * 50000 = 2500$  INR

A's commission from own direct hostesses:  $500000 * 9\% = 45000$  INR

**A's total commission: 4000 + 10000 + 2500 + 45000 = 61000 INR**
