Services

Matt is a photographer specializing in tour and live music coverage. With previous crew experience for a major Nashville touring act, he understands how a stage works and how a show moves, and what it takes to deliver night after night. That experience shapes the way he works: aware of the environment, respectful of the people in it, and focused on making strong images without adding friction for the artist, musicians, crew, or management.

Whether the need is for print, press, promotion, or social, Matt can deliver images in both film and digital formats. His work is centered on the unrepeatably moments that define a live performance and make it worth remembering. He can provide fast selects for social, recap galleries, press-ready stills, and broader show documentation for print, promotion, and archive.

About

Matt's work in tour photography is informed by his background as a musician, creator, and marketer, all of which shape the images he creates. Photography has been a lifelong pursuit, with strong interests in landscape, nature, and wildlife as well, but live performance remains one of the most compelling environments he has photographed.

Capturing the raw energy of a show and the moments it creates onstage and around it, is one of the most rewarding parts of his work. His focus is on creating imagery that helps artists build awareness, deepen audience connection, and strengthen their visual identity.

He brings both a creative eye and a practical understanding of how image-making fits into a larger working environment. The goal is not only to make photographs that feel alive, but to make photographs that are useful — images that can support promotion, storytelling, and the long arc of an artist's career.

Logistics

Matt is based in Indiana and available for travel. He holds a current U.S. passport, is background-check ready, and is insured. He works with a multi-camera kit, can support remote and fixed-camera setups, and operates through an Indiana-based LLC. He is also a licensed commercial drone operator and a member of Professional Photographers of America since 2023.
