

Etiquette

On Court

Be supportive of partner.

Respect your opponents.

Line call is made by the pair on the side shuttle falls.

The closest player to the shuttle is to pick it up and pass it to the next person to serve.

Acknowledge each other at the end of the game.

If you are the last players on a court at the end of the evening please take down the nets to help the Campus staff.

Off Court

For everyone's safety and to prevent disruption to play, please keep the back of the courts clear and the walking areas around the courts clear of any potential obstacles.

Pick Board

Try to mix players for games picked throughout the evening. Choose from the first 7 players in the queue on the board, unless you have been playing with them repeatedly throughout the evening.

If this is the case, you can choose from further along the queue in order of waiting players.

When picking, try and mix the players so you are not playing with the same people all evening.

The winning team is responsible for removing the game from the board.
