PLANNING PARTNERS

Part of the Milestone Experience includes utilizing our team of wine country event experts to not only help you find the perfect venue, but also to deliver you safely to the next phase of your wedding journey, the planning phase. Not only do we prioritize matching you with the venue of your dreams, but we continue to act as your trusted guide to match you with the vendor team of your dreams as well!

Booking a team of solid vendors is key, and this starts with finding a planner or coordinator that is the right fit for you. No need to take a shot in the dark when selecting one of the most essential vendors, and we're here to help!

How we match you with the perfect planner:

Narrow down the list to planners only available on your date, saving you time.

Match based on your personality and individual needs.

Discuss the levels of planning services before meeting with planners, so you begin your search educated and ready to ask the right questions.

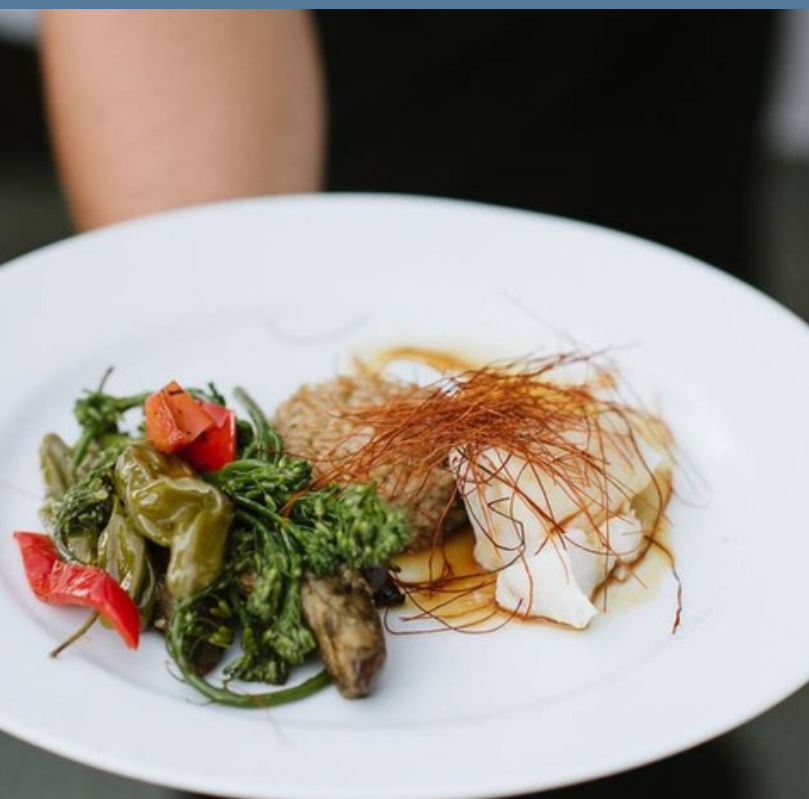

We go over transparent price ranges, so you match with planners who have the packages that fit your budget.

Ask us about our Planning Partners to get started!
