

CV Amplifying Consultation – Service Description & Terms (30 min)

By Matteo Aurelio Arellano, CFA

What's Included

This 30-minute session is a **personalized, high-impact review** of your CV tailored for the Dutch and EU job market.

Once your payment is confirmed, I will reach out to you via LinkedIn or e-mail if you've provided it and we will schedule the session.

I will:

- Highlight key improvements for content, format, and ATS compatibility
- Suggest quantifiable rewrites to position you better for recruiter scanning
- Offer insider guidance on Dutch/EU market expectations (remote vs on-site, language preferences, cultural tone)
- Provide short follow-up notes or resources if needed

This session is ideal for data professionals, analysts, engineers, or anyone transitioning into the EU space, especially the Netherlands, Belgium, or Germany.

About Me

I'm **not a recruiter**, and I don't offer job placement.

Instead, I bring **6+ years of direct experience working in the EU job market**, with a track record at companies like **Cargill, PIA Group, and the European Investment Bank**.

I've led hiring interviews, collaborated with HR teams, and understand the expectations that European companies place on CVs — especially in data, finance, and tech roles.
