

Architecture | Interior | Planning

OUR COMPANY

ALTIS DESIGN is a Jakarta based Architecture and Interior design practice with both local and international experiences.

The team consist of visionary professional designers with more than 20 years of practice in the industry.

We have experienced in collaborating with multinational companies as well as global organizations.

THE PHILOSOPHY

Our design process combine innovative thinking with specific approach on every works that energy efficient, harmoniously connected to its context and function.

We committed to delivering solutions which are challenging, sensitive, exciting and designed to exceed client expectations.

SERVICES

01 ARCHITECTURAL DESIGN

Architecture is a combination of all elements that holds it up. Structure, services, quality of air and natural light, symbolism of the form, interaction of the building with the user and surroundings.

02 INTERIOR DESIGN

We crafted the building form inside-out as much as from the outside-in. Understanding people's needs and the way which a space will be used. Creating Interiors that are both functional and elegant.

03 MASTER PLANNING

Designing in a wider scale, public space is more significant than the individual building. We develop space which harmoniously connected to its context.

PRINCIPALS

AR. HANIF WICAKSONO, ST., IAI.

Design Director

Hanif Wicaksono gained professional experience with leading architectural firms across Indonesia, Australia, Japan, and the United Kingdom. He began his career at Arkonin in Jakarta, before working with Phillip Cox in Sydney, Takenaka Corporation in Osaka, and Catalyst in Birmingham. In 2011, he founded his own architectural practice in Jakarta. Hanif is a licensed architect and holds STRA (Surat Tanda Registrasi Arsitek) certification.

ROBIE BESTARI, SE

Business Development

With more than 20 years of experience in the property industry, including his work with several leading developers, Robie has developed a comprehensive understanding of construction processes, legal aspects, and financing strategies. His expertise provides a strong foundation for delivering precise and sustainable solutions for every project.

ARIO PRANA, ST

Construction Director

Ario has extensive experience in the construction industry, ranging from residential homes to resorts and villas. His technical expertise and deep understanding of structural systems and construction processes make him a key member of the team. With a collaborative approach, Ario plays an active role in delivering buildings that are not only structurally sound but also aligned with the client's vision and expectations.
