

I have thoughtfully curated a selection of artworks priced under \$1,000 from respected galleries that specialize in Haitian art and global contemporary voices. These platforms bring together works from multiple galleries in a single, trusted space, allowing collectors to discover exceptional pieces with both cultural and artistic significance. This approach empowers both seasoned collectors and first-time buyers to engage confidently, explore thoughtfully, and build a meaningful collection at their own pace. If a particular work captures your interest, please feel free to reach out. Collectors also have the opportunity to submit an offer, creating a more personal and flexible acquisition experience.
