Polypropylene Woven Bags & Fabric

Woven Sacks & Fabric

Paxigen Poly Pack offers a wide range of high-quality PP woven sacks and woven fabric in various sizes and designs to suit diverse packaging and industrial needs. Our woven sacks are widely used for storage, handling, and transportation of products like grains, sugar, flour, fertilizer, and cement, while our woven fabric is ideal for converting into sacks, tarpaulins, and other packaging solutions.

Our woven solutions are durable, cost-effective, and provide excellent tensile strength and tear resistance. Polypropylene (PP) material allows easy printing of brand or product details, ensuring clear identification and enhanced visibility during logistics and storage.

Woven Sacks & Fabric Available in:

- ✓ High Tensile & High Strength Fabric
- ✓ Multiple Sizes & Designs
- ✓ Reusable & Durable
- ✓ Custom Printing Options

Features

- ✓ Made from high-quality woven polypropylene (PP)
- ✓ Coated, uncoated, and laminated options available
