

MTC Cyber — Cyber Readiness Snapshot Report

Client: caldern.org **Date:** 20 October 2025

Website / Domain: caldern.org

Overview

MTC Cyber ran a quick, safe public scan to check how well your website is protected online. This free snapshot gives a simple look at how secure your site appears from the outside.

Cyber Readiness Score: 96 / 100

Area	Result	Notes
SSL / Encryption	 Excellent	Secure HTTPS connection is active and valid until Dec 2025.
Browser Safety Headers	 Good	Strong protections detected — keeps visitors safer from web attacks.
Website Platform	 Excellent	Hosted on Hostinger Website Builder – modern, low-risk system.
Public Ports	 Excellent	Only safe web ports (80 & 443) are open; everything else is locked down.
Breach Mentions	 Excellent	No public data leaks linked to this domain.
Overall Rating	 Excellent	Secure and well-maintained site with only a few small checks to stay perfect.

Summary of Findings

Your website is **secure**, **modern**, and **well configured**.

Visitors connect safely, and no old or risky software was found.

Only small improvements are possible, such as confirming your host keeps HTTPS active year-round.

Next Steps

For a deeper look, MTC Cyber can prepare a **Full Cyber Report** that:

- Explains every issue in **simple language**
- Shows **screenshots** of what was found
- Lists **easy fixes** and priorities

- Includes a short **follow-up call** for guidance
