Ådalsvägen 24, Huskvarna

# Maged Karh Yosof

Student: Architectural Engineering

## Education

### Bachelor of Science in Architectural Engineering

Jönköping University, Sweden

Expected Graduation Date: June 2025

### Relevant Skills:

- Revit and AutoCAD
- Technical drawing and blueprint reading
- Communication and Presentation
- Problem-Solving

## Projects

### Design of Housing Unit in Gothenburg

- Developed a comprehensive design for a residential housing unit in Gothenburg, Sweden.
- Created detailed floor plans and layouts, considering space efficiency, functionality, and aesthetics.
- Incorporated a courtyard design that enhances the living environment, optimizing natural light and green spaces.
- Collaborated with a team of fellow students to address architectural and structural aspects.

## Internship Experience

### Faisal Constructions Consultancy, Libya

- Worked alongside architects and engineers on a hospital project.
- Gained valuable exposure to architectural and engineering practices, project management, and interdisciplinary collaboration.
- Assisted in various aspects of the project, contributing to a comprehensive understanding of construction processes and design considerations.

### Bengt Erlandsson

Architect and Programme  
Manager at Jönköping University

"Maged has been a model student in Architectural Engineering in several courses that I teach at Jönköping University showing an understanding of the entire design process as well as the building process and thinking outside the box. I would highly recommend him to be involved in any design or building project"
