Not only did I not know I was losing my health insurance that he who shall not be named was suppose to keep me on but he who shall not be named gave the wrong dates of divorce and I am being billed over \$53,000 dollars backdated from 2019 a year before we even finalized and I was given no notice of my eligibility being changed until October 2020 😱 seriously WTF! Army doesn't give Jack shit for the supportive wives and mothers who sacrifice so much over a decade or that there own high ranking officers are selfish abusive narcissists. I'm disgusted 😢😢
