**GlassRow is redefining the standards of the glass works industry in Delhi NCR with a bold commitment to professionalism, precision, and client trust. Based in Shahberi, Greater Noida, we specialize in custom-designed glass and aluminum solutions for residential, commercial, and industrial spaces.**

**GLASS ROW**

## **Our Story In Glass**

### **Raising the Bar in Professionalism**

**At GlassRow, we are not just another vendor—we are your project partners. In an industry often plagued by untrained labor and miscommunication, we are solving a critical problem: the shortage of skilled, reliable, and professional manpower.**

## **Our Team**

**At the heart of our company is a passionate and visionary team dedicated to redefining how spaces are shaped with glass. Founded by Abuzar Zaidi , an Interior designer, our journey began with a simple goal: to bring elegance, transparency, and precision into modern environments. Alongside him, Sameer Zaidi—an expert in engineering and operations—joined as Co-Founder, turning creative vision into practical, scalable solutions. Together, they've built a team of skilled designers, fabricators, and project managers who share a commitment to craftsmanship, innovation, and customer satisfaction. Every project we undertake is backed by a unified belief: great spaces begin with clear vision and flawless execution.**
