- Designed responsive UI components using Flutter's widget framework.
- Implemented BLoC and Provider for state management.
- Collaborated with cross-functional teams to understand project requirements.
- Worked with Git for version control and followed Agile methodologies.
- Debugged and optimized applications for performance and efficiency.

## TRAINING/CERTIFICATION

### Dart and Flutter learning

Broadways infosys / 2023

### Diploma in Computer

Zenith Computer Academy / 2017

Zenith Computer Academy / 2017 Diploma In MS-Office all package, all Multimedia, E-mail& internet Computer Application Adobe Photoshop, Adobe PageMaker , Computer Hardware . 6 month

### Computer Hardware and Software Training

Butwal Multiple Campus / 2018

2018 30 days training

## PROJECTS

### Weatherly (Weather App)

- Built a real-time weather forecasting app using Flutter.
- Integrated GPS location tracking and REST API for fetching weather data.
- Implemented BLoC state management for better UI handling.
- GitHub: [Weather App](#)

## **E-commerce App**

- Developed an online shopping app with Firebase authentication and online payment.
- Implemented product listing, cart management, and order tracking features.
- Used REST APIs to fetch and manage product data.
- GitHub: [E-commerce App](#)

## **Chat App**

- Created a real-time chat application using Flutter and Firebase.
- Implemented one-on-one and group chat features.
- Utilized Provider for state management.
- GitHub: [Chat App](#)
