A Story of Culinary Art and Heritage of Craft

Vietnam proudly boasts a rich tapestry of culinary and craft traditions. From the globally acclaimed Phở to the beloved Bánh Mì, Vietnamese cuisine holds a special place in the hearts of food enthusiasts worldwide. Yet, beyond its culinary treasures, Vietnam harbors a hidden gem: its remarkable tradition of craftsmanship. For centuries, artisans in Vietnam, historically known as Annam, have refined their pottery-making skills, with some villages boasting over a millennium of heritage.

A Chef, His Wife and a Shared Dream

Founder of Annamis, Chef Matt, had the privilege of working in some of Europe's most esteemed restaurants. While learning from world's best chefs, he gained a keen understanding of the finer aspects of dining. The experience is not only about masterfully prepared ingredients; it's a holistic journey encompassing ambiance, service, and presentation – including the subtle but significant role of tableware. When introduced to the art of Vietnamese handmade ceramics by his wife Phương, he knew he had to share it with the world.

Affordable and Exceptional Handmade Quality

Annamis captures Vietnam's essence through handcrafted tableware made in close collaboration with local artisans. Our collection spans elegant dinnerware and unique accessories, offering exceptional quality and cultural depth. Most core pieces are hand-painted and double-fired, while newer lines like Diamond are single-fired for greater affordability without losing design impact. We're passionate about sharing Vietnam's craftsmanship through pieces that bring tradition and character to the table.

IMPORTANT NOTES:

- **Catalogue Overview:** This catalogue presents a meticulously curated array of items. For a comprehensive view of shapes, kindly inquire about our complete product list.
- **Scale Notice:** Please note that the images may not be to scale; their primary purpose is to highlight the distinctive features of each item.
- **Artisanal Details:** Slight variations in size, glaze, and texture showcase the artisanal essence of the product and are celebrated.
- **Firing & Durability:** Circle, Square, and Triangle are our core collections, crafted using a double-firing process for maximum density and vitrification. Diamond offers a more accessible alternative, with a single-firing process and slightly higher absorption suited to standard hospitality use.

Essential Care Guide

Initial Wash

Before first use, wash crockery with warm water and mild detergent to remove any residue from manufacturing or shipping.

Regular Checks

Periodically inspect for cracks or chips. Compromised pieces should be retired from service to avoid breakage during use.

Avoid Direct Heat

Don't use crockery directly on stovetops or under broilers. Use as serving dishes, not cookware.

Storage

Stack carefully or use separators to prevent scratching and chipping. Don't overcrowd shelves.

Daily Cleaning

Use non-abrasive sponges and mild detergents to clean. Avoid harsh scrubbers or steel wool that can damage glaze.

Stain Removal

For stubborn stains, soak in a mixture of warm water and baking soda before washing.

Dishwasher Use

If dishwasher-safe, place on the top rack, ensuring pieces don't touch to avoid chipping.

Microwave Precaution

Heat gradually if microwave-safe. Avoid sudden temperature changes which can cause cracking.
