Hon. Chair's Message

Garry Jacobs
Co-Founder & Honorary Chair

At the Conscious Management Institute, we believe that management is far more than a set of techniques; it is a science of human accomplishment. For decades, my work with World Academy of Art & Science and the World University Consortium, as an international business consultant and researcher in India and internationally have centered on understanding the deeper principles that enable individuals, organizations, and societies to achieve continuous growth and sustainable development. The CMI program is based on insights developed, tested and proven by me and a very experienced team of international management experts. It is place where knowledge, values, and action come together to create transformative leaders.

Today's world demands a new kind of leadership - one that integrates intelligence with purpose, and innovation with personal development. The challenges faced by businesses and societies cannot be solved by fragmented thinking or short-term strategies. They require holistic understanding, conscious decision-making, and the ability to harmonize the primary forces that shape progress: market, technology, people, finance, and organization. These five engines of accomplishment, when aligned with clarity and values, generate extraordinary results.

CMI's programs are built upon this foundational philosophy. Here, students learn not merely to manage systems, but to empower people; not just to respond to change, but to shape it; not only to seek success, but to create value that endures. Our curriculum draws on proven global experience across education, business consulting, entrepreneurship, and organizational development, and translates universal principles into actionable strategies for the modern world.

What makes CMI unique is its unwavering commitment to the development of the individual. Every great organization is ultimately the expression of the people who build it. When individuals develop inner awareness, outer competence, commitment to values and a deep sense of purpose, organizations grow with them. This belief is at the heart of every course we offer at CMI, every mentoring relationship we foster, and every partnership we build with globally respected institutions.

As you begin your journey with us, I invite you to embrace learning not as a requirement, but as a pathway to your highest potential. The world is full of possibilities waiting to be realized by those who think consciously, act courageously, and lead with vision. CMI is here to support you in that journey, equipping you with the knowledge, values, and confidence to become a force for positive change in business and society.

Welcome to CMI - where education becomes empowerment, and leadership becomes a conscious choice.

Founder's Message

S.S. Sreejith
Founder & Managing Director

Welcome to the Conscious Management Institute (CMI) Private Ltd, nestled in the vibrant heart of Pondicherry. As the Managing Director, it brings me great joy to introduce you to an institution that stands on the pillars of innovation, quality, and holistic education, inspired by the vision we set forth in 2025.

At CMI, we believe that education is a transformative journey. Our vision is to create a value-based, student-centered, and contextual educational experience where students are not just participants, but the very essence of learning. We strive to nurture their talents and guide them to become conscientious leaders of tomorrow.

With three distinct departments—Conscious Management & Leadership, Logistics & Supply Chain Management, and AI & Data Science—our diverse curriculum offers both Postgraduate and Professional Diploma programs tailored to meet the demands of today's dynamic world. Our commitment to excellence is further amplified by the presence of a distinguished international faculty, who bring global perspectives and expertise directly to our students.

Situated in the thriving city of Pondicherry, our modern campus offers a stimulating environment designed to foster creativity, collaboration, and innovation. Our strategic partnerships with prestigious organizations such as the Global Institute of International Management Studies (GIIMS), World University Consortium, and Skill India's Sector Skill Councils provide our students with unparalleled opportunities for growth, networking, and career advancement.

At CMI, we are dedicated to embedding values of integrity, resilience, and professionalism into every aspect of our educational framework, ensuring that our graduates not only succeed professionally but also contribute positively to society. Our aim is to inspire a new generation of leaders who are equipped to navigate the complexities of an ever-evolving global landscape with purpose and compassion.

As we look to the future, we are excited by the prospect of reaching new heights and continuing to transform the educational experience. We are driven by the belief that our students' potential is limitless, and with the right guidance and opportunities, they will achieve greatness.

Thank you for your interest in the Conscious Management Institute—where education is not just about gaining knowledge, but about inspiring change. We invite you to become a part of our journey and realize your potential with us.

About Us

Our Vision

"Education is the yoga of the society"

At the Conscious Management Institute (CMI), we believe that true leadership begins with awareness and purpose. CMI stands at the forefront of a new paradigm in business education, one that unites strategic intelligence with human consciousness to create leaders who drive success through insight, integrity, and innovation.

Rooted in decades of international research and collaboration with world-renowned institutions such as the World University Consortium (USA), experts from the World Academy of Art & Science, and GIIMS India, CMI redefines what management education means in the 21st century.

Our programs go beyond conventional theory to offer transformative learning experiences that combine practical excellence with deep personal growth. Through a blend of academic rigor, real-world application, and inner development, CMI equips students to become global professionals, visionary entrepreneurs, and conscious leaders who shape organizations and society for the greater good.

Each course at CMI integrates the principles of conscious management - balance, value creation, harmony, and human accomplishment with the latest tools in AI, logistics, leadership, and organizational transformation. These core principles are rooted in the internationally recognized management frameworks presented in *The Vital Difference* and *The Vital Corporation*, two global management books co-authored by Garry Jacobs. By grounding our curriculum in these works, CMI ensures a truly international educational perspective.

Our world-class faculty of business experts, global mentors, and thought leaders from Europe, the U.S., and India ensure that every student's journey is guided by excellence, relevance, and purpose preparing them not only for service but successful entrepreneurship.

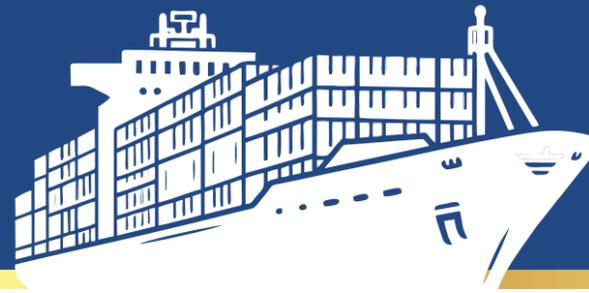

At CMI, education is not just preparation for a career, it is a pathway to conscious evolution. We prepare you not only to lead companies, but to lead change, shaping a future that is successful, sustainable, and deeply human.

Our Mission

"Developing a new generation of highly qualified professionals for creating a peaceful and prosperous world"

Messages

Creating Leaders in Logistics

Conscious Management Institute (CMI) is built on the belief that education must empower individuals to think critically, act responsibly, and lead with purpose. At CMI, we go beyond delivering academic content. We guide students to explore ideas, question assumptions, analyse real-world situations, and develop the confidence to apply their knowledge effectively. The Logistics, Leadership & AI in management landscape is evolving rapidly, demanding professionals who are agile, ethical, and future-ready. Through interactive learning, hands-on practical exposure, mentorship, and strong technological industry engagement, we help students cultivate the skills and values required to excel in this challenging environment. Our programs are designed not only to impart technical proficiency but also to nurture clarity of thought, emotional intelligence, teamwork, leadership and entrepreneurship. I welcome each of you to immerse yourselves fully in the opportunities offered here and to take ownership of your personal and professional journey. Together, we shape individuals who are prepared to lead, inspire, and create value in the world.

Welcome to the Conscious Management Institute, where learning extends far beyond traditional management education.

We believe leadership is not about control but about awakening potential. Our approach unites outer excellence with inner consciousness, aligning the five engines of success—Market, Technology, People, Finance, and Organization—with deeper principles of values and purpose. This integration transforms trust, harmony, speed, and quality into real drivers of growth.

“Most of the problems of the world will be solved and innumerable opportunities can be created if organisation as a principle is accepted in the life of the world. Organisation solves problems and creates opportunities. Organise the opportunities.”

This spirit of conscious organisation lies at the core of CMI's philosophy.

At CMI, we integrate advanced technology, values-based leadership, and human-centered development to build a future-ready conscious learning framework that empowers individuals and institutions to grow with clarity and impact.

It is truly a breakthrough opportunity for students, opening doors to deeper learning and purposeful leadership.

Conscious Management Institute (CMI) stands for an education that inspires curiosity, nurtures capability, and builds character. The institute's commitment to conscious management, value-based leadership, and holistic development ensures that every learner receives not only knowledge but also the wisdom to apply it meaningfully. At CMI, each student is guided to discover their strengths, cultivate confidence, and build a strong ethical foundation. The emphasis on communication, collaboration, and personal development prepares them not just for employment, but for long-term accomplishment in the global management landscape. I encourage every student to fully engage with the learning experiences offered here and make the most of the support provided by our faculty and mentors. Your journey at CMI will shape you into professionals capable of contributing positively and leading with purpose.

Conscious Management Institute (CMI), provides the opportunity for every student to transform into a successful professional. The dramatic changes we witnessed in the past year show the value of logistics in the world today, and the need for enterprising, creative people who can adapt to change, solve new and complex problems, and convert challenges into opportunities. Here at CMI you will receive the education you need to become a creative problem solver and establish your career in the field of logistics. Using an interactive, student-centered and transdisciplinary learning methodology, we provide you with the academic knowledge and management skills required for the present as well as the future. The soft skills development activities that complement your personality, and provide you with the values that qualify you for sustained accomplishment at the highest levels. Whether your aim is to become an entrepreneur, or find a job within the global Logistics and SCM industry, you will receive assistance at every stage from everyone at CMI. We welcome you to make use of all the facilities and opportunities available, and ensure your personal and professional progress.

CERTIFICATIONS

Member Institution & Associate in Joint Certification

World University Consortium is a non-profit organization promoted by a group of world-renowned progressive educationalists. The mission of World University Consortium is to evolve and promote development of accessible, affordable, quality higher education worldwide based on a human-centered approach that shifts the emphasis from specialized expertise to contextualized knowledge within a trans-disciplinary conceptual framework reflecting the complexity and integration of the real world, from teaching mastery of a field of knowledge to learning that enhances the capacity of students to think and discover knowledge for themselves, from theoretical mastery to acquisition of knowledge, skills and values relevant to each individual's personal development and career – an educational system better suited to develop the full potentials of social personality and individuality for productive engagement, social welfare and psychological well-being. WUC provides global certification for CMI diplomas.

Global Institute of Integral Management Studies (GIIMS), aims to equip the future generation of management professionals by our academic council comprising senior practising managers, consultants, professors, analysts & lawmakers through a unique system of education developed over a period of time. Our system enhances student's best qualities and capabilities to create highly motivated and committed professionals empowering them to meet the needs of society and of business.

GIIMS Campuses in God's own country, Kerala is one of its kind in this sector of education developed with a fusion of best values of East and West, delivering quality human resource training and allied services for the furtherance of social development.

GIIMS had launched the best training program in India in the field of Logistics and Supply Chain Management along with World University Consortium, USA, Confederation of Indian Industries - Institute of Logistics, Chennai, India. We are offering Advance Diploma, PG Diploma and Global Masters programs in this sector. Uniqueness of GIIMS in offering these programs is in its pedagogy of Student Centered Approach, where students and their individuality are the focal points in the classrooms, encouraging them for peer to peer learning, active participatory sessions by incorporating case studies discussion forum and presentations, guiding them for understanding the concepts than the usual methods of memorizing the data and information. Personality development of a student as a Logistics professional is given prime importance above the usual curriculum-centered approach followed by many institutions. GIIMS is guided directly by the prestigious Institute of Person Centered Approach, Italy promoted by Dr. Carl Rogers in implementing student centered and people centered pedagogy in our campus.

Collaborating Partner

Logistics Sector Skill Council, (LSC) a society registered under the Societies Registration act, 1860 is a not for profit organization set up by Ministry of Skill Development and Entrepreneurship (MSDE) through National Skill Development Corporation of India (NSDC) and promoted by Confederation of Indian Industries Institute of Logistics (CII-IL) a Centre of Excellence in Logistics with the aim to develop skill trained as well as up-skill the workforce in India. CMI is a Collaborating partner of Logistics Sector Skill Council for conducting PG Diploma, Professional Diploma and certification programs in Logistics & SCM, Leadership studies and Artificial Intelligence & Data Science in India.

Certifications

Dangerous Goods Handling

Safety is of prime importance and knowledge in handling hazardous material in every walk of life ensures a logistician find employment easily. Segregation of dangerous goods, labelling as per IMDG code, handling methods, storing and loading containers are the sessions held on dangerous goods handling at CMI.

Air Cargo Operations

With already four international airports functioning in the small state of Kerala and more planned in the country, a specialisation in air cargo is a sure step towards employment. The sessions on Air Cargo held at GIMS includes international air routes, airport codes, loading into ULD's (Unit Load Device) and labelling as per regulation by ICAO.

Sea Cargo Operations

With a coast line of 7500 km and 90% of the foreign trade done by sea, the employment opportunities are vast for a logistics student. Sea cargo sessions at CMI deals with all the aspects involved including Port Operations, Export Import documentations, INCOTERMS and Ocean Logistics.

SAP for Materials Management

Future of logistics is shaped with digital technology. Digital excellence is the key skill required for an employee by the companies. As part of industry needs, GIMS - Institute of Logistics introduces Learnings in Logistics Technologies

GLOBAL THEATRE is a trailblazing initiative from CMI to combine education with entertainment, fostering an engaging and interactive learning environment. Designed to empower students with the skills required for professional excellence, it enhances their communication, presentation, team work, creativity, and cultural awareness. Guided by industry experts, this innovative platform offers Immersive experiences that prepare students for the global stage.

The GLOBAL THEATRE edutainment platform ensures that students are not only industry-ready but also equipped with the skills, confidence, and creativity to excel in diverse environments. It's more than a learning experience—it's a transformative journey toward professional and personal success!

Highlights of Global Theatre

- Orientation: Kickstarts the journey by familiarizing students with the program's objectives, structure, and benefits, setting the tone for interactive learning.
- Career Development Sessions (CDS): Practical sessions aimed at sharpening career readiness by refining resume crafting, interview skills, and professional etiquette.
- Industry Institute Interface (III): Opportunities to bridge the gap between academia and industry by engaging students with real-world professionals and their insights.
- Outbound Training: Experiential learning through outdoor activities focused on building leadership, problem-solving, and decision-making skills.
- Personality Development Programs: Focused on enhancing self-confidence, emotional intelligence, and personal branding for career growth.
- Industry Visits: Hands-on exposure to various industries to understand their operational dynamics and practical applications of theoretical concepts.
- Global English Club: An exclusive forum to hone English communication skills through debates, discussions, and language-building activities.
- Logi Quiz: A competitive and engaging way to test and enhance knowledge in logistics, supply chain management, and related fields.
- General Management Sessions: Interactive workshops to impart insights on management strategies, decision-making, and leadership principles.
- Cultural and Sports Programs: Activities that promote holistic development, cultural appreciation, and team spirit while maintaining physical and mental well-being.

The Future is Digital: Embrace IT with CMI!

In today's fast-paced world, proficiency in IT and computers is no longer optional—it's essential. No matter the career path you choose, a strong foundation in information technology is the key to success. CMI opens the door to this exciting digital era of education.

At CMI, we understand that the future of logistics lies in harnessing the power of digital technologies. Responding to industry demands, we proudly offer advanced learning programs in Logistics

Technologies, preparing our students to excel with the sought-after digital skills needed by top organizations.

Our mission is to empower students with vital computer literacy skills, creating a firm base for their future careers. Here's how our meticulously designed course achieves this:

- Promoting essential computer literacy.
- Providing hands-on training in data processing and office automation—key skills for today's tech-driven world.
- Equipping students with the in-demand computing abilities valued by industry leaders.
- Mastering advanced tools like Word, Excel, PowerPoint, and SAP applications.

Step into the world of cutting-edge education with CMI, where we connect learning with the digital future of logistics!

Rainbow Sessions are structured to equip students with essential skills for securing a job or building a career. These sessions focus on seven distinct skill sets, analyzed through scientifically validated methods. The program includes:

- Comprehensive English proficiency tests.
 - IT assessments tailored for logisticians.
 - Subject knowledge evaluation in all discipline, including relevant terms and terminologies.
 - Psychometric tests for personality assessment.
 - Training in teamwork and peer-to-peer collaboration.
 - Development of leadership, public speaking, and presentation skills.
- Interview preparation and group discussion techniques.

English Leadership Interview Skills Subject Knowledge Personality
Team Play Role Play

CMI AI EDGE initiative empowers you with vital AI skills to drive innovation, tackle challenges, and create smarter, more sustainable supply chains. Stay Future-Ready, bridging the gap between today's logistics and tomorrow's opportunities. With AI as the driving force, CMI leaders prepared to shape the future of logistics & beyond.

How This Helps Students at CMI Through the AI EDGE initiative, students gain:

Practical AI Skills: Develop hands-on experience with AI technologies that are directly relevant to logistics and supply chain management, ensuring readiness for high-demand roles.

Enhanced Employability: Build a competitive edge in the job market by acquiring versatile AI-driven competencies in communication, data analysis, and project management.

Stronger Self-Awareness: Use psychometric tools to identify strengths and make informed career decisions aligned with personal and professional goals.

Global Readiness: Improve English proficiency to confidently engage in international business environments and collaborative ventures.

Technology Integration: Master digital tools to adapt to technology-driven workplaces and lead innovations in the supply chain sector.

Leadership Development: Gain insights into AI-powered strategies, enabling students to take up leadership roles and drive impactful transformations in their organizations and beyond.

By fostering creativity, adaptability, and analytical thinking, the AI EDGE initiative truly aligns with CMI's mission to nurture trailblazers in logistics and supply chain education. It's more than just a curriculum; it's a gateway to shaping smarter industries and a better future.

Dr. Alberto Zucconi
President IACP, Italy

CMI IS IN ASSOCIATION WITH GIIMS, INDIA'S FIRST STUDENT CENTERED CAMPUS

Person Centered, Student Centered Education

"The only person who is educated is the one who has learned how to learn and change." Carl Rogers

GIIMS Campus takes pride in being directly guided by a team led by Dr. Alberto Zucconi from Italy, promoting student-centered education and pedagogy to shape the leaders of tomorrow.

The Person-Centered Approach (PCA), pioneered by Dr. Carl Rogers, is a scientifically validated, holistic method that applies to various fields, including psychology, education, medicine, social work, and management. At its core, PCA emphasizes that individuals possess immense inner resources for self-awareness, attitude shifts, and self-guided growth. These resources flourish when nurtured in an environment of trust, respect, empathy, and authenticity.

Unlike traditional teaching, PCA focuses on fostering learning by creating growth-driven, supportive interpersonal relationships. This approach encourages creativity, resilience, and accountability over dependency, as noted by Barrett-Lennard (1998) and Dr. Alberto Zucconi (2008, 2011, 2013).

Person-Centered Education (PCE), often called student-centered education, develops essential transferable skills like problem-solving, critical thinking, and self-reflection. By making values explicit, students are empowered to take proactive, critical roles in their communities and grow into fully functioning, responsible members of society.

My academic days at GIIMS have been truly unforgettable and formative experiences in my life. The institution has played a significant role in shaping my personality, leadership skills, time management, and overall development. The exceptional academic environment has instilled in me a strong foundation for lifelong career excellence.

Drisya Prem J
Logistics Coordinator

I am glad to be a part of GIIMS which has helped me to stand up on my feet. The placement department is very supportive and took a lot of effort to place the students in the best possible companies. I am glad to say that GIIMS helped me in successfully getting a job in KUEHNE NAGEL AHMADABAD, as an executive trainee.

Siva Sajeev
Executive Trainee

Learning Experience In GIIMS was Amazing. I have received a great support from faculties. Professional and friendly faculties who helped me to truly graduate as a professional..

Thank you GIIMS"

Gopu Sreekumar
Export Coordinator

I had done Pg Diploma in Logistics and Supply Chain Management and now I am working at Mediterranean Shipping Company (MSC), Hyderabad as Assistant Executive.

I was able to achieve this only with the guidance and support of GIIMS family. Thank you GIIMS and I am extremely happy to be a part of GIIMS.

Sanusha P
Assistant Executive

Hi, I'm Sanith, currently pursuing my PG Diploma in logistics in Supply Chain management at GIIMS Kochi. Before completing my course I have got placed directly in a company named Bell and John Logistics - Kuwait and I'm so thankful to GIIMS for providing me this opportunity.

Sanith S
Logistics Coordinator
(Bell & John Logistics, Kuwait)

I am very happy to share my sincere thanks and appreciation to GIIMS and all staff members who helped me in my journey of Logistics and supply chain management course. And I am glad to say that GIIMS helped me in successfully getting a job in DB Schenker Gurgaon.

Sandra Saji
Exim Supervisor

I had a great time doing this course and everyone involved in the Logistics and Supply chain management. GIIMS has made it a great experience and played a significant role in achieving my position as Logistics Executive In Kitchen Treasures under Synthite group

Thank you for all the assistance and feedback, it has been delightful and very gratifying.

Kavya K M
Logistics Executive

I am very happy to be a part of GIIMS. Before completing my PG Diploma in Logistics & Supply Chain Management course I got placed in MRF, Maharashtra. I got a best opportunity from GIIMS. And the entire team of is really amazing & helping to reach best future. Thanks to GIIMS team.

Sujith Suresh
Pricing Department

GIIMS is a place where you should choose. From being a job aspirant was my immense luck and fortune to be a part of GIIMS. I got placed as Logistics Documentation in Tropical Industry at West Africa. My sincere gratitude towards all for supporting me.

Aneesh N
Logistics Documentation,
West Africa

My experience at GIIMS was great and memorable. The mentors at GIIMS helped us enhance my academic and interpersonal skills. I am thankful to the Training & Placement cell for providing a platform to enhance my skills and an opportunity to showcase them.

Arun Kumar
NVOCC Sales Coordinator

CAREER DEVELOPMENT AND CORPORATE RELATIONS

CMI - Institute of Logistics is providing Internship and Placement Assistance through a dedicated Career Development and Corporate Relation team (CDCR). Through continuous and comprehensive evaluation of students, CDCR team plans various class training activities to enhance their employability skills by conducting Soft Skill training, mock interview, group discussion, presentation skill, MS- Office, aptitude Test training, typing skills, grooming, online profile creating, online job portal training, job search training, English language training to meet the standards set by companies.

The Alumni group at CMI holds a pivotal role in our placement and internship programs. We regularly gather industry feedback on our students' job performance and internship experiences, leveraging our alumni's industry track record. This enables us to maintain strong relationships with current hiring clients and expand our industry's reach across India. Experience is an unavoidable factor in getting a job. Internship is a form of work experience and work knowledge given by an employer to the student for an exposure to the working environment in the logistics industry as a social commitment. Each year our students undergo internship at renowned organisations. We firmly believe that internship provide the students with an unprecedented opportunity to explore the practical insights of the logistics and supply chain industry and the corporate world.

I am very much grateful for your invaluable support and guidance throughout the course. Not only in academics but also in improving my soft skills such as communication, leadership qualities, public speaking etc. The mentors used to sincerely guide us to become a better person everyday. I was a guy who was really afraid of public speaking but you provided me several opportunities to build confidence and improve my speaking skills. Above all that I gained a lot of confidence as a person too. Thank you so much for providing opportunities to prove myself and will be forever grateful.

Muhammed Akthar
Logistics Sales Associate

Joining in GIIMS was one among the best decision I have taken in my life. I always wanted to take up a different career path rather than Marketing and Finance. That's how I came to know about the Logistics and Supply Chain Management. The expertise and the kind of training provided by GIIMS have given me the confidence to enter the Global Job market and establish a strong career which I am proud of. I would not have achieved my career without GIIMS and I'm proud to introduce myself as a GIIMS Alumni.

SREEHARI M
Sr. Global Procurement Specialist

Friendly atmosphere to build up a confidence in ourselves and help in a successful career. The process in GIIMS helped to make a perfect logistician. I am Proud of myself as a GIIMS student.

Abhijith M S
Team Lead

Studying at GIIMS was a great experience that helped me grow both personally and professionally. The institution provided me with strong knowledge & practical skills in Logistics. I am truly grateful to the faculty & staff for their continuous support and guidance, which helped me reach this position.

Asha Santhosh
Import Consolidation Executive

I'm glad to be a part of GIIMS. I'm very thankful to GIIMS for giving me such a wonderful opportunity to build a better carrier in logistics field as a Logestition. My friend introduced me to GIIMS, joining in GIIMS was one of the best decisions in my life. The long journey I had in GIIMS taught me many things such as Personality development, power of unity, decision making etc... Currently I'm working as Operation Associate in RIVIGO

Adarsh K
Operations Associate

Learning Experience In GIIMS was Amazing. I have received a great support from faculties. Professional and friendly faculties who helped me to truly graduate as a professional..

Thank you GIIMS"

Arpitha Baby
Executive Trainee

Fruitful and memorable classes, influencing personalities are standing in front of us. I experienced a wonderful grooming at GIIMS.

Christeena George
Executive Trainee

The right decision I taken in my life was choosing GIIMS for studying Logistics and Supply Chain Management Course. Their guidance helped me to secure a job at one of the reputed company in this field. I thank the institution and all the staff members for all the guidance and support.

Hamna Azad
Overseas Coordinator

GIIMS Institute is a place of learning, fun, culture and many such life changing activities. Studying at GIIMS brought an added value to my life.

It gave me an opportunity to meet different kinds of people and learn a number of things.

I have received great support from the faculty and placement department.

I am thankful to GIIMS

Bazam Basheer
Executive in Import Documentation

I immensely believe that GIIMS is one of the best logistics & Supply Chain Management institute in Kochi and I consider myself lucky to be a part of GIIMS. This Campus is well maintained & has the best infra-structure facility. I had the best times in this college & it has been a unforgettable Journey.
